Information Collection Requirement; Defense Federal Acquisition Regulation Supplement; Part 239, Acquisition of Information Technology

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Notice and request for comments regarding a proposed revision and extension of an approved information collection requirement.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, DoD announces the proposed revision and extension of a public information collection requirement and seeks public

comment on the provisions thereof. DoD invites comments on: whether the proposed collection of information is necessary for the proper performance of the functions of DoD, including whether the information will have practical utility; the accuracy of DoD's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology. The Office of Management and Budget (OMB) has approved this information collection for use under OMB Control Number 0704-0341 through March 31, 2024. DoD proposes that OMB approve an extension of the information collection requirement, to expire three years after the approval date.

DATES: DoD will consider all comments received by January 8, 2024.

ADDRESSES: You may submit comments, identified by OMB Control Number 0704-0341, using either of the following methods:

Federal eRulemaking Portal: <https://www.regulations.gov>. Follow the instructions for submitting comments.

Email: osd.dfars@mail.mil. Include OMB Control Number 0704-0341 in the subject line of the message.

SUPPLEMENTARY INFORMATION:

Title and OMB Number: Defense Federal Acquisition Regulation Supplement (DFARS) Part 239, Acquisition of Information Technology, and associated clause at DFARS 252.239-7000; OMB Control Number 0704-0341.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Respondent's Obligation: Required to obtain or retain benefits.

Reporting Frequency: On occasion.

Number of Respondents: 1,880.

Responses per Respondent: 8.6,

approximately.

Annual Responses: 16,172.

Average Burden per Response: 0.5

hour.

Annual Burden Hours: 8,086.

Needs and Uses: This requirement provides for the collection of information from contractors regarding security of information technology. Contracting officers and other DoD personnel use the information to ensure that information technology is

protected. The clause at DFARS 252.239–7000, Protection Against Compromising Emanations, requires that the contractor provide, upon request of the contracting officer, documentation that information technology used or provided under the contract meets appropriate information assurance requirements.

The requirement at DFARS 239.7408, which requires the contracting officer to obtain a detailed special construction proposal from a common carrier that submits a proposal or quotation that has special construction requirements related to the performance of basic telecommunications services, is being removed from this collection. Approximately three offerors are required to submit a special construction proposal each year, which does not require OMB approval under the Paperwork Reduction Act because it does not meet the threshold of ten or more members of the public being affected within any 12-month period.
