Title: FMC Assistance Center (Web Portal).

OMB Approval Number: 3072-XXXX.

Abstract: Subsection 17(a) of the Ocean Shipping Reform Act of 2022 requires that the Commission establish on their public website a web page that allows for the submission of comments, complaints, concerns, reports of noncompliance, requests for investigation, and requests for alternative dispute resolution.¹ The statute also requires that the website direct each submission to the

appropriate component office of the Commission.

The FMC will implement a new web portal, the FMC Assistance Center, available through the agency's website to collect this information from the public. The collected information will be internally routed to the appropriate component office for response. As this collection includes inquiries related to dispute resolution services, it also encompasses Forms FMC-32 (Dispute Resolution Service Request—Cruise) and FMC-33 (Dispute Resolution Service Request—Cargo). Forms FMC-32 and FMC 33 have been modified in the Affirmation section to remove a statement directing the public to a link on the agency web page and to add a statement that the matter will be closed if false statements and documents are provided. These forms and the Assistance Center screen mock-ups are included in this docket. The burden associated with these forms is included in this collection.

Current Actions: The information being submitted contains a new data collection.

Type of Review: New information collection.

Needs and Uses: The Commission will use the FMC Assistance Center (web portal) to receive requests from the public and ensure prompt response to the shipping public.

Frequency: This information will be collected when members of the public choose to submit it.

Type of Respondents: Individuals and establishments who wish to ask questions, express concerns, or submit complaints to the Federal Maritime Commission.

Number of Annual Respondents: The Commission estimates an annual respondent universe of 5,000. The Commission further estimates 300 of these responses will require attaching an FMC form related to dispute resolution services (FMC-32 or FMC-33).

Estimated Time per Response: The time per response is estimated at 6 minutes per response for submissions that do not involve attaching forms and 20 minutes for responses requiring attaching forms.

Total Annual Burden: Burden is calculated as $4,700 \times 6$ minutes = 470 hours per portal submission that does not also include a form and 300×20 minutes = 100 hours for a submission that also includes either FMC-32 or

FMC-33. Total burden equals 570 hours.

Carl Savoy,

Federal Register Alternate Liaison Officer.

I. Background

Home infusion therapy (HIT) is a treatment option for Medicare beneficiaries with a wide range of acute and chronic conditions. Section 5012 of the 21st Century Cures Act (Pub. L. 114-255, enacted December 13, 2016) added section 1861(iii) to the Social Security Act (the Act), establishing a new Medicare benefit for HIT services. Section 1861(iii)(1) of the Act defines "home infusion therapy" as professional services, including nursing services; training and education not otherwise covered under the Durable Medical Equipment (DME) benefit; remote monitoring; and other monitoring services. - Have a plan of care established and periodically reviewed by a physician in
