Title of Collection: Charter Online Management and Performance System (COMPS) State Entity Annual Performance Report.

OMB Control Number: 1810–NEW.

Type of Review: New ICR.

Respondents/Affected Public: State, local, and Tribal governments.

Total Estimated Number of Annual Responses: 80.

Total Estimated Number of Annual Burden Hours: 3,040.

Abstract: This request is for a new OMB approval to collect the Annual Performance Report (APR) data from Charter School Programs (CSP) State Entity (SE) grantees. The Charter School Programs (CSP) was originally authorized under title V, part B, subpart 1, sections 5201 through 5211 of the Elementary and Secondary Education Act (ESEA) of 1965, as amended by the No Child Left Behind (NCLB) Act of 2001. For fiscal year 2017 and thereafter, ESEA has been amended by the Every Student Succeeds Act (ESSA), (20 U.S.C. 7221–7221i), which reserves funds to improve education by supporting innovation in public education and to: (1) provide financial assistance for the planning, program design, and initial implementation of charter schools; (2) increase the number of high-quality charter schools available to students across the United States; (3) evaluate the impact of charter schools on student achievement, families, and communities, and share best practices between charter schools and other public schools; (4) encourage States to provide support to charter schools for facilities financing in an amount more nearly commensurate to the amount States typically provide for traditional public schools; (5) expand opportunities for children with disabilities, English learners, and other traditionally underserved students to attend charter

schools and meet the challenging State academic standards; (6) support efforts to strengthen the charter school authorizing process to improve performance management, including transparency, oversight and monitoring (including financial audits), and evaluation of such schools; and (7) support quality, accountability, and transparency in the operational performance of all authorized public chartering agencies, including State educational agencies, local educational agencies, and other authorizing entities.

The U.S. Department of Education (ED) is requesting authorization to collect data from CSP grantees within the SE program through a new online platform. In 2022, ED began development of a new data collection system, the Charter Online Management and Performance System (COMPS), designed specifically to reduce the burden of reporting for users and increase validity of the overall data. This new collection consists of questions responsive to the actions established in the program’s final rule published in the **Federal Register** on July 6, 2022, as well as the SE program Notice Inviting Applications (NIA). This collection request is a consolidation of all previously established program data collection efforts and provides a more comprehensive representation of grantee performance.

SUPPLEMENTARY INFORMATION: The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Title of Collection: REL Peer Review: Pilot Data Collection Methods for Examining the Use of Research Evidence.

OMB Control Number: 1850-NEW.

Type of Review: New ICR.

Respondents/Affected Public: Individuals or households.

Total Estimated Number of Annual Responses: 115.

Total Estimated Number of Annual Burden Hours: 43.

Abstract: The Institute of Education Sciences (IES) within the U.S. Department of Education (ED) requests clearance for data collection activities to support a pilot study of the reliability and validity of survey items used to assess the use of research evidence (URE) among education agencies and other partners served by the Regional

Educational Laboratories (RELs). The REL program is an essential IES investment focused on partnering with state and local education agencies to use evidence to improve education outcomes by creating tangible research products and providing engaging learning experiences and consultation. IES seeks to better understand how REL partners use research evidence to improve education outcomes and the role of RELs in promoting URE among partners. This study will test the reliability and validity of new and extant URE items in the REL context. Specifically, the study will (1) assess how existing items from the URE literature perform in a REL context and (2) assess the reliability and validity of a small set of items from the Stakeholder Feedback Surveys (SFS) that are currently administered to REL partners and used by IES to improve the work of REL contractors, inform the REL program as a whole, and address internal requests such as the Congressional Budget Justification. The reliability and validity of the new and existing survey items will be assessed through two data collection activities: an online survey administered to a set of partnerships across RELs and follow-up interviews with a subset of REL partners.
