### Food and Nutrition Service

*Title:* 2023 Pulse Survey: Operational Challenges in Child Nutrition Programs.

*OMB Control Number:* 0584–NEW.

*Summary of Collection:* FNS administers the Child Nutrition (CN) Programs in partnership with States, local SFAs, other program sponsors, and local program operators. Section 28(a) of the Richard B. Russell National School Lunch Act authorizes the U.S. Department of Agriculture Secretary to conduct annual national performance assessments of the school meal programs and requires States and local entities participating in the programs to cooperate with program research and evaluations. FNS plans to collect periodic data to obtain information on operational challenges facing institutions who operate or administer child nutrition programs, including State agencies, SFAs and Summer Food Service Program (SFSP) Sponsors. The Operational Challenges in Child Nutrition Programs (OCCNP) Surveys, are designed to collect timely data on emerging school food service operational challenges, including but not limited to supply chain disruptions, food costs, and labor shortages, and/or related issues in SY 2023–2024, 2024–2025, and SY 2025–2026.

*Need and Use of the Information:* Access to a timely and reliable source of data on these topics has become particularly important following the COVID–19 pandemic. In addition to changing the ways that school meal programs operated, the pandemic has contributed to lasting supply chain issues and substantial changes in the cost and availability of food and labor. The ability to collect this data will allow FNS to provide the best possible support to States and program sponsors and operators facing continued food service operations challenges and enable FNS to respond more quickly and effectively to potential disruptions in the future.

*Description of Respondents:* State, Local and Tribal Governments, Business, Private not-for-profit.

*Number of Respondents:* 19,106.

*Frequency of Responses:* Reporting: On Occasion, Annually.

#### Changes Since the Preliminary Results

Based on our analysis of the comments received from interested parties, Commerce made certain changes to the margin calculations for Assan Alüminyum Sanayi ve Ticaret A.S. (Assan) and Teknik Alüminyum Sanayi A.S. (Teknik).<sup>4</sup>

#### Rate for Non-Examined Companies

The statute and Commerce's regulations do not address the establishment of a weighted-average dumping margin to be determined for companies not selected for individual examination when Commerce limits its examination in an administrative review pursuant to section 777A(c)(2) of the Act. Generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in an investigation, for guidance when determining the weighted-average dumping margin for companies which were not selected for individual examination in an administrative review. Under section 735(c)(5)(A) of the Act, the all-others rate is normally an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding rates that are zero, *de minimis*, or determined entirely on the basis of facts available. For these final results of review, we calculated weighted-average dumping margins for Assan and Teknik that are not zero, *de minimis*, or based entirely on facts available. Therefore, consistent with Commerce's practice, we determined a dumping margin for the non-examined companies by weight-averaging the margins for Assan and Teknik using publicly ranged sales values for sales of subject merchandise to the United States.

#### Final Results of the Administrative Review

We determine that the following weighted-average dumping margins exist for the period October 15, 2020, through March 31, 2022.

Exporter or producer	Weight-average dumping margin (percent)
Assan Alüminyum Sanayi ve Ticaret A.S. ....	1.25
Teknik Alüminyum Sanayi A.S. ...	18.20

<sup>4</sup> See the Issues and Decision Memorandum for descriptions of these changes.
