responsibilities in detail, such as State DOT responsibilities for projects that do not use Federal funds, which are not related to the purpose of an S&O Agreement.

The FHWA also agrees that it is important for State DOTs to supervise construction projects on the NHS, including those undertaken by its subrecipients. The FHWA does not, however, believe that the S&O Agreement needs to include additional language to reflect this need. Section VII of the template includes language stating that the State DOT is responsible for ensuring that its subrecipients meet applicable Federal requirements. The FHWA does not believe it appropriate or necessary to explicitly state that this oversight must be done by directly supervising construction of projects on the NHS.

Schedule To Implement Changes

In accordance with section 11307(c)(1) of BIL, FHWA has considered all comments received on its proposed S&O Agreement template. Through this notice, FHWA is describing the proposed changes to be made to that proposed template and is addressing comments in response to which changes were not made to the template. In accordance with sections 11307(c)(1)(C) and 11307(c)(3)(A) of BIL, FHWA is updating its S&O Agreement template, which can be found at: https://www.fhwa.dot.gov/ federalaid/stewardship/. Pursuant to section 11307(c)(3)(B) of BIL, FHWA will ensure that this revised template is used to update existing S&O Agreements not later than November 12, 2024.

Authority: 23 U.S.C. 106(c); section 11307, Pub. L. 117–58, 135 Stat. 532; 49 CFR 1.85.

Shailen P. Bhatt,

Administrator, Federal Highway Administration.

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket No. FRA-2010-0029]

Amtrak's Request To Amend Its Positive Train Control Safety Plan and Type Approval

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of availability and request for comments.

SUMMARY: This document provides the public with notice that, on October 31 and November 3, 2023, the National Railroad Passenger Corporation (Amtrak) submitted a request for amendment (RFA) to its FRA-approved Positive Train Control Safety Plan (PTCSP). As this RFA may involve a request for FRA's approval of proposed material modifications to an FRA-certified positive train control (PTC) system, FRA is publishing this notice and inviting public comment on the railroad's RFA to its PTCSP.

DATES: FRA will consider comments received by December 4, 2023. FRA may consider comments received after that date to the extent practicable and without delaying implementation of valuable or necessary modifications to a PTC system.

ADDRESSES:

Comments: Comments may be submitted by going to https://www.regulations.gov and following the online instructions for submitting comments.

Instructions: All submissions must include the agency name and the applicable docket number. The relevant PTC docket number for this host railroad is Docket No. FRA-2010-0029. For convenience, all active PTC dockets are hyperlinked on FRA's website at https://railroads.dot.gov/research-development/program-areas/train-control/ptc/railroads-ptc-dockets. All comments received will be posted without change to https://www.regulations.gov; this includes any personal information.

FOR FURTHER INFORMATION CONTACT:

Gabe Neal, Staff Director, Signal, Train Control, and Crossings Division, telephone: 816–516–7168, email: Gabe.Neal@dot.gov.

SUPPLEMENTARY INFORMATION: In general, title 49 United States Code (U.S.C.) section 20157(h) requires FRA to certify that a host railroad's PTC system complies with title 49 Code of Federal Regulations (CFR) part 236, subpart I, before the technology may be operated in revenue service. Before making certain changes to an FRA-certified PTC system or the associated FRA-approved PTCSP, a host railroad must submit, and obtain FRA's approval of, an RFA to its PTCSP under 49 CFR 236.1021.

Under 49 CFR 236.1021(e), FRA's regulations provide that FRA will publish a notice in the **Federal Register**

and invite public comment in accordance with 49 CFR part 211, if an RFA includes a request for approval of a material modification of a signal or train control system. Accordingly, this notice informs the public that, on October 31 and November 3, 2023, Amtrak submitted an RFA to its PTCSP for its Advanced Civil Speed Enforcement System II (ACSES II), which seeks FRA's approval of a new variance, regarding the Secure Positive Train Stop Release, to FRA's current Type Approval and PTC System Certification of Amtrak's ACSES II. That RFA is available in Docket No. FRA-2010-0029.

Interested parties are invited to comment on Amtrak's RFA to its PTCSP by submitting written comments or data. During FRA's review of this railroad's RFA, FRA will consider any comments or data submitted within the timeline specified in this notice and to the extent practicable, without delaying implementation of valuable or necessary modifications to a PTC system. See 49 CFR 236.1021; see also 49 CFR 236.1011(e). Under 49 CFR 236.1021, FRA maintains the authority to approve, approve with conditions, or deny a railroad's RFA to its PTCSP at FRA's sole discretion.

Privacy Act Notice

In accordance with 49 CFR 211.3, FRA solicits comments from the public to better inform its decisions. DOT posts these comments, without edit, including any personal information the commenter provides, to https:// www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at https://www.transportation.gov/privacv. See https://www.regulations.gov/ privacy-notice for the privacy notice of regulations.gov. To facilitate comment tracking, we encourage commenters to provide their name, or the name of their organization; however, submission of names is completely optional. If you wish to provide comments containing proprietary or confidential information, please contact FRA for alternate submission instructions.

Issued in Washington, DC.

Carolyn R. Hayward-Williams,

Director, Office of Railroad Systems and Technology.
