

2020), such responses will be considered by the Commission if received not later than 20 days after the date of service by the complainants of the complaint and the notice of investigation. Extensions of time for submitting responses to the complaint and the notice of investigation will not be granted unless good cause therefor is shown.

Failure of a respondent to file a timely response to each allegation in the complaint and in this notice may be deemed to constitute a waiver of the right to appear and contest the allegations of the complaint and this notice, and to authorize the administrative law judge and the Commission, without further notice to the respondent, to find the facts to be as alleged in the complaint and this notice and to enter an initial determination and a final determination containing such findings, and may result in the issuance of an exclusion order or a cease and desist order or both directed against the respondent.

By order of the Commission.
Issued: November 14, 2023.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-694 and 731-TA-1641-1642 (Preliminary)]

Aluminum Lithographic Printing Plates From China and Japan

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of aluminum lithographic printing plates (ALPs) from China and Japan, provided for in subheadings 3701.30.00 and 3701.99.60 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (“LTFV”) and to be subsidized by the government of China.²

¹ The record is defined in § 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).

² 88 FR 73316 and 88 FR 73313 (October 25, 2023).

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission’s rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in § 207.21 of the Commission’s rules, upon notice from the U.S. Department of Commerce (“Commerce”) of affirmative preliminary determinations in the investigations under §§ 703(b) or 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under §§ 705(a) or 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Background

On September 28, 2023, Eastman Kodak Company, Rochester, New York, filed petitions with the Commission and Commerce, alleging that an industry in the United States is materially injured or threatened with material injury by reason of subsidized imports of ALPs from China and LTFV imports of ALPs from China and Japan. Accordingly, effective September 28, 2023, the Commission instituted antidumping and countervailing duty investigation Nos. 701-TA-694 and 731-TA-1641-1642 (Preliminary).

Notice of the institution of the Commission’s investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of October 4, 2023 (88 FR 68669). The Commission conducted its conference on October 19, 2023. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to §§ 703(a) and 733(a) of the Act (19 U.S.C. 1671b(a) and 1673b(a)). It completed

and filed its determinations in these investigations on November 13, 2023. The views of the Commission are contained in USITC Publication 5475 (November 2023), entitled *Aluminum Lithographic Printing Plates from China and Japan: Investigation Nos. 701-TA-694 and 731-TA-1641-1642 (Preliminary)*.

By order of the Commission.

Issued: November 13, 2023.

Lisa Barton,

Secretary to the Commission.

OFFICE OF MANAGEMENT AND BUDGET

**Office of Federal Procurement Policy
Acquisition Data Management**

AGENCY: Office of Federal Procurement Policy, Office of Management and Budget.

ACTION: Proposed new Office of Management and Budget Circular No.

A-XXX, "Strategic Management of Acquisition Data and Information".

SUMMARY: The Office of Federal Procurement Policy (OFPP) in the Office of Management and Budget (OMB) is proposing a new OMB Circular, Strategic Management of Acquisition Data and Information. The purpose of this Circular is to improve agency access to reliable data and information. Using relevant acquisition data throughout the acquisition lifecycle facilitates successful contracting outcomes. This Circular establishes a centralized data management strategy to create robust knowledge and data banks, develop standard data sharing processes, and improve agency access to tools and resources for acquisition-related decision-making.

DATES: Interested parties should submit comments in writing to the address below on or before January 16, 2024.

ADDRESSES: Submit comments to the *Federal eRulemaking Portal*: <https://www.regulations.gov>. Follow the instructions on the portal for submitting comments. *Instructions:* Please submit comments only and cite "Proposed New OMB Circular A-XXX" in all correspondence. All comments received will be posted, without change or redaction, to www.regulations.gov, so commenters should not include information that they do not wish to be posted (for example because they consider it personal or business confidential). Additionally, the OMB System of Records Notice, OMB Public Input System of Records, OMB/INPUT/01 includes a list of routine uses associated with the collection of this information.

FOR FURTHER INFORMATION CONTACT: Kristen Wilson, +1 (202) 881-9426, kristen.h.wilson@omb.eop.gov or send your email to MBX.OMB.OFPPv2@OMB.eop.gov, Office of Federal Procurement Policy, 725 17th Street NW, Washington, DC 20006, at 202-395-6805.

SUPPLEMENTARY INFORMATION: There are tens of billions of acquisition data points residing in over 170 contract writing systems (including legacy systems) and over 15 payment processing platforms across the Federal enterprise. Historically, much of this data has been collected and managed by agencies. Agencies have used their resources to build tools within their agency, harnessing internal data and databases, but this has often led to duplicative tools and efforts and a lack of coordination across agencies. This approach has limited Government-wide capacity for analytics, insights, and

efficiency gains other than the System for Award Management and the Federal Procurement Data System, which generally provide aggregate data but very little pricing and best practices information.

To address these challenges, the proposed Circular would establish a new acquisition data management policy of promoting Hi-Definition (Hi-Def) acquisitions where agencies are able to acquire supplies or services using acquisition data that is easily accessed and available at the time of need. To that end, OMB is creating a Hi-Def acquisition framework to promote data interoperability, sharing of acquisition data between agencies, and enterprise-wide data analysis. This framework is supported by a Hi-Def acquisition data environment that includes a scalable technical architecture and solution to store, access, utilize, share, and archive acquisition data without having to duplicate data, tools, or effort. Hi-Def acquisitions are a critical component of the acquisition community's work to buy as an organized enterprise, as it will provide access to the breadth and depth of information needed to support the activities of the largest and most sophisticated buyer in the world.

Achieving a Hi-Def environment will require greater transparency and collaboration in agency data systems planning and investment decisions where these activities would impact the Government's ability to achieve data interoperability for information that is critical or can otherwise significantly improve acquisition decision-making at both the Government-wide and agency-wide level. To this end, the Circular (1) establishes interagency governance, (2) defines agency roles and responsibilities, and (3) supports the design and development of solutions to drive interoperability, allowing systems to connect and share acquisition data wherever they reside within the Federal government without duplication.

Of particular note, the proposed Circular would:

Require agencies to prepare annual strategic plans. Agencies will report on steps to address general data management stewardship, government-wide priority initiatives and individualized acquisition data hurdles or responsibilities that may impact other agencies.

Build appropriate centralization. The Circular will support centralized standards, knowledge banks, and data-sharing tools using established and strengthened governance. Existing standards and processes will be updated, modernized, and enforced
