OMB Approval Date: November 7, 2023.

OMB Expiration Date: November 30, 2026.

Title: Part 61, Tariffs (Other than the Tariff Review Plan).

Form Number: N/A.

Statutory authority for this information collection is contained in sections 151–155, 201–205, 208, 251–271, 403, 502 and 503 of the Communications Act of 1934, as amended (the Act), 47 U.S.C. 151–155, 201–205, 208, 251–271, 403, 502 and 503.

Total Annual Burden: 171,378 hours.

Needs and Uses: On April 21, 2023, the Commission released the *Access Arbitrage Second Report and Order*, WC Docket No. 18–155, FCC 23–31, 88 FR 35743, which added rules applicable to internet Protocol Enabled Service (IPES) Providers engaged in Access Stimulation. In the *Access Arbitrage Second Report and Order*, the Commission adopted rules requiring that access-stimulating IPES Providers provide notice of their status to the Commission by filing a record of their access-stimulating status in the Commission's Access Arbitrage docket, and to provide notice to any affected Interexchange Carriers (IXCs) and Intermediate Access Providers of the same, within 45 days of the effective date of that requirement after approval of that information collection by OMB (or for an entity that later engages in access stimulation, 45 days from the date it commences access stimulation). If, after the effective date of this requirement, an access-stimulating IPES Provider is no longer engaged in Access Stimulation, the IPES Provider must file notice of that change in status with the Commission and with any affected IXCs and Intermediate Access Providers.

The revisions to this collection reflect the notice and reporting requirements adopted by the Commission in the *Access Arbitrage Second Report and Order*. The information provided by IPES Providers pursuant to rules

adopted in the *Access Arbitrage Second Report and Order* informs interested parties of an entity's engagement in Access Stimulation.

(f) Notwithstanding paragraphs (a) through (d) of this section, any local exchange carrier that is not itself engaged in Access Stimulation, as that term is defined in § 61.3(bbb) of this chapter, but serves as an Intermediate Access Provider with respect to traffic bound for a local exchange carrier engaged in Access Stimulation or bound for an IPES Provider engaged in Access Stimulation, shall not itself be deemed a local exchange carrier engaged in Access Stimulation or be affected by paragraphs (a) and (b) of this section.
