DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID: FEMA- 2023-0014; OMB No. 1660-NW164]

Agency Information Collection Activities: Proposed Collection; Comment Request; an Investigation of the Effect of Disaster Response and Recovery on Perceived Stress and Emotional Trauma

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: 60-Day notice of new collection and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public to take this opportunity to comment on an Investigation of the Effect of Disaster Response and Recovery on Perceived Stress and Emotional Trauma. In accordance with the Paperwork Reduction Act of 1995, this notice seeks comments concerning the effect of disasters on the mental health of emergency managers at local, State, and Federal levels.

DATES: Comments must be submitted on or before February 2, 2024.

ADDRESSES: To avoid duplicate submissions to the docket, please submit comments at www.regulations.gov under Docket ID FEMA-2023-0014. Follow the instructions for submitting comments.

All submissions received must include the agency name and Docket ID. Regardless of the method used for submitting comments or material, all submissions will be posted, without change, to the Federal eRulemaking Portal at <http://www.regulations.gov>, and will include any personal information you provide. Therefore, submitting this information makes it public. You may wish to read the Privacy and Security Notice that is available via a link on the homepage of www.regulations.gov.

FOR FURTHER INFORMATION CONTACT:

Megan Corley, Supervisory Psychologist, FEMA Mental Health, at fema-mentalhealth@fema.dhs.gov or (202) 880-7506. You may contact the Information Management Division for copies of the proposed collection of information at email address: FEMA-Information-Collections-Management@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: A study to investigate the effect of disaster response and recovery on emergency managers was requested by Congress in the Consolidated Appropriations Act, 2021 (Pub. L. 116-260). 29 CFR part 1960, entitled "Basic Program Elements for Federal Employee Occupational Safety and Health Programs and Related Matters", contains special provisions to assure safe and healthful working conditions for Federal employees; requiring the head of each Federal Agency to maintain an effective and comprehensive occupational safety and health program consistent with section 6 of the Occupational Safety and Health Administration Act of 1970 (Pub. L. 91-596) (OSHA Act). Furthermore, 5 U.S.C. 7902 requires the head of each agency to develop and support organized safety promotion to reduce accidents and injuries to its employees, encourage safe practices, and eliminate hazards and risks. Under 5 U.S.C. 7902(e), Agencies must also keep a record of injuries and accidents.

This program was established to improve the mental health of FEMA's, as well as State and local, emergency managers in response to the effects of stress caused by disasters. This data collection is needed to comply with the OSHA Act, 5 U.S.C. 7902 requiring the monitoring, reporting, and mitigation of

workplace injuries, and with the request from Congress to undertake this survey.

Collection of Information

Title: An Investigation of the Effect of Disaster Response and Recovery on Perceived Stress and Emotional Trauma.

Type of Information Collection: New information collection.

OMB Number: 1660-NW164.

FEMA Forms: FEMA Form FF-119-FY-23-100, FEMA Congressional Mental Health Emergency Manager Wellness Study Survey.

Abstract: This information collection supports a study to investigate the effect of disaster response and recovery on emergency managers that was requested by Congress in 2022. This is a voluntary survey that will be collected electronically with approximately 38 questions pertaining to the individuals' experience and demographics, as well as their perceptions of emotional trauma and stress symptoms while supporting a disaster response or recovery. Prior to seeing these questions, participants will see an informed consent screen that outlines the nature of the study, risks, benefits, and Institutional Review Board (IRB) information. Participants may choose to end the survey at any time without questions being asked. Participants are given mental health resources to support them in the event of emotional triggering.

Affected Public: State, local, and Tribal governments.

Estimated Number of Respondents: 378.

Estimated Number of Responses: 378.

Estimated Total Annual Burden

Hours: 189.

Estimated Total Annual Respondent

Cost: \$11,712.

Estimated Respondents' Operation

and Maintenance Costs: \$0.

Estimated Respondents' Capital and

Start-Up Costs: \$0.

Estimated Total Annual Cost to the Federal Government: \$306,752.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those

who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

DEPARTMENT OF HOMELAND SECURITY

[Docket No. CISA–2023–0023]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Foundational Cybersecurity Assessment

AGENCY: Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

ACTION: 60-Day notice of information collection; request for comment; new collection (request for a new OMB Control Number 1670–NEW).

SUMMARY: CISA Cybersecurity Division (CSD) submits the following information for a new collection request (ICR) to the Office of Management and Budget (OMB) for review and clearance.

DATES: Comments are encouraged and will be accepted until February 2, 2024. Submissions received after the deadline for receiving comments may not be considered.

ADDRESSES: You may submit comments, identified by docket number CISA–2023–0023, by the following the instructions below for submitting comments via the Federal eRulemaking Portal at <http://www.regulations.gov>.

Instructions: All comments received must include the words “Cybersecurity and Infrastructure Security Agency” and docket number CISA–2023–0023 for this notice. All comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided. Comments submitted in response to this notice may be made available to the public through relevant websites. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary information. Please note that responses

SUPPLEMENTARY INFORMATION: The purpose of the Foundational Cybersecurity Assessment is to guide State, Local, Territorial, and Tribal (SLTT) entities through the first 12–18 months of their cybersecurity plan development. The assessment contains 32 questions that are aligned to the National Institute of Standards and Technology (NIST) Cybersecurity Framework and the Center for internet Security (CIS) CIS Critical Security Controls. Although not directly related, at least 20 of the questions on the Nationwide Cybersecurity Review (NCSR) will be covered by responses to the Foundational Cybersecurity Assessment, allowing it to serve as an excellent “assessment on-ramp” for entities who have not yet been able to tackle and complete the NCSR. The entity participating in the Foundational Cybersecurity Assessment is positioned to take the NCSR and continue their security maturity journey year-over-year following participation in the Foundational Cybersecurity Assessment. CISA is authorized to receive and analyze cyber threat indicators, defensive measures, cybersecurity risks, and incidents, and to use this information to make recommendations to federal and non-federal entities regarding protective and support measures to reduce cyber risk. See 6 U.S.C. 659(c)(1),(9); 652(e)(1)(C). The Foundational Assessment implements these authorities with respect to CISA’s analysis of and support to SLTT entities. This is a NEW information collection. OMB is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

Foreign Endangered Species; Receipt of Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, invite the public to comment on applications to conduct certain activities with foreign species that are listed as endangered under the Endangered Species Act (ESA). With some exceptions, the ESA prohibits activities with listed species unless Federal authorization is issued that allows such activities. The ESA also requires that we invite public comment before issuing permits for any activity
