

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
Program Eligibility Protocol .....	16	1	16	1.00	16.0
Program Staff Focus Group Protocol 1 (Co-definition Phase) .....	24	1	24	1.50	36.0
Program Staff Focus Group Protocol 2 (Co-definition Phase) .....	24	1	24	1.50	36.0
Program Staff Focus Group Protocol (Installation & Refinement Phases) .....	24	3	72	1.00	72.0
Program Staff Focus Group Protocol (Summary Phase) ....	24	1	24	1.00	24.0
Family Focus Group Protocol (Co-definition & Summary Phases) .....	48	1	48	1.00	48.0
Home Visitor Questionnaire (Installation & Refinement Phases) .....	40	9	360	0.17	61.2
Family Post-Visit Questionnaire (Refinement Phase) .....	48	6	288	0.08	23.0
Focus Group Participant Characteristics Form (All Phases)	120	1	120	0.08	9.6
<b>Total</b> .....	<b>368</b>	.....	<b>976</b>	.....	<b>325.8</b>

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

**Health Resources and Services Administration**

**Agency Information Collection Activities: Proposed Collection: Public Comment Request; Information Collection Request Title: Home Visiting Assessment of Implementation Quality Study: Better Addressing Disparities Through Home Visiting**

**AGENCY:** Health Resources and Services Administration (HRSA), Department of Health and Human Services.

**ACTION:** Notice.

**SUMMARY:** In compliance with the requirement for opportunity for public comment on proposed data collection projects of the Paperwork Reduction Act of 1995, HRSA announces plans to submit an Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting the ICR to

OMB, HRSA seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

**DATES:** Comments on this ICR should be received no later than February 5, 2024.

**ADDRESSES:** Submit your comments to *paperwork@hrsa.gov* or mail the HRSA Information Collection Clearance Officer, Room 14N39, 5600 Fishers Lane, Rockville, Maryland 20857.

**FOR FURTHER INFORMATION CONTACT:** To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, email *paperwork@hrsa.gov* or call Joella Roland, the HRSA Information Collection Clearance Officer, at (301) 443-3983.

**SUPPLEMENTARY INFORMATION:** When submitting comments or requesting information, please include the ICR title for reference.

*Information Collection Request Title:* Home Visiting Assessment of Implementation Quality Study: Better Addressing Disparities through Home Visiting, OMB No. 0915-xxxx-[NEW]

*Abstract:* The Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program, authorized by Social Security Act, title V, section 511 (42 U.S.C. 711) and administered by HRSA in partnership with the Administration for Children and Families, supports voluntary, evidence-based home visiting services during pregnancy and for parents with young children up to kindergarten entry. States, tribal entities, and certain nonprofit organizations are eligible to receive funding from the MIECHV Program and have the flexibility to tailor the program to serve the specific needs of their communities. Funding recipients may subaward grant funds to

local implementing agencies (LIAs) to provide home visiting services to eligible families in at-risk communities.

Through the Home Visiting Assessment of Implementation Quality Study, HRSA aims to examine specific components of the Home Visiting Implementation Quality Conceptual Framework to inform strategies for implementing high quality home visiting programs. One of the three quality components the study will focus on is addressing disparities. HRSA will explore how families that experience disparities in outcomes targeted by the MIECHV Program experience home visiting services. The requested information collection is an initial step in understanding those experiences and will provide a better understanding of how MIECHV-funded home visiting programs currently address disparities and promote equity. Data collection activities include interviews, focus groups, online surveys, program observations, and review of documents and management information systems data.

*Need and Proposed Use of the Information:* HRSA is seeking additional information about families' experiences within home visiting and strategies the MIECHV Program has used to address disparities in their work with families. HRSA intends to use this information to identify actionable strategies that MIECHV awardees and LIAs could take to remove potential obstacles to family enrollment in home visiting services and to help address health disparities.

*Likely Respondents:* MIECHV Program awardees that are states, nonprofit organizations, and tribes; LIA staff (program directors, coordinators, supervisors, and home visitors); and families that experience greater

disparities in maternal and newborn health (families participating in MIECHV-funded home visiting services).

*Burden Statement:* Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information

requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train

personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS <sup>1</sup>

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
Request for Information about LIAs .....	28	1	28	0.25	7
LIA and Family Nomination Form .....	70	1	70	2.00	140
Family Online Survey .....	210	1	210	0.50	105
Family Focus Group Protocol .....	52	1	52	1.00	52
Home Visitor Group Interview Protocol .....	10	1	10	1.00	10
LIA Leadership Interview Protocol .....	6	1	6	1.00	6
Family Case Study Focus Group Protocol .....	12	1	12	1.00	12
<b>Total .....</b>	<b>388</b>	<b>.....</b>	<b>388</b>	<b>.....</b>	<b>332</b>

<sup>1</sup> There may be variation in the number of study participants (e.g., some programs may have fewer home visitors). The total burden hours presented here provide information assuming the maximum number of respondents in each community.

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

*Information Collection Request Title:* Assessing the Use of Coaching to Promote Positive Caregiver-Child Interactions in Home Visiting OMB No. 0906-xxxx-[New]

*Abstract:* The Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program, authorized by the Social Security Act, title V, § 511 (42 U.S.C. 711) and administered by HRSA in partnership with the Administration for Children and Families, supports voluntary, evidence-based home visiting services during pregnancy and for parents with young children up to

kindergarten entry. States, tribal entities, and certain nonprofit organizations are eligible to receive funding from the MIECHV Program and have the flexibility to tailor the program to serve the specific needs of their communities. Funding recipients may subaward grant funds to local implementing agencies to provide home visiting services to eligible families in at-risk communities.

This information collection is part of the Assessing and Describing Practice Transitions Among Evidence-Based Home Visiting Programs in Response to the COVID-19 Public Health Emergency Study. This study aims to identify and study practices implemented in response to the COVID-19 public health emergency that support evidence-based practice and have the potential to enhance home visiting programming. One of the practices the study identified is the use of coaching to promote caregiver-child interactions and positive caregiving skills. Coaching involves a home visitor providing instructions to the parent or caregiver as they carry out the skill and differs from a common home visiting strategy modeling in which home visitors first demonstrate a skill themselves before asking the parent or caregiver to try it. The purpose of this information collection is to better understand, through rapid cycle learning, how MIECHV-funded home visiting programs can implement coaching strategies during home visits.

Information will be collected in four phases designed to (1) define coaching strategies (co-definition phase); (2)
