

(b) In such circumstances, the authorized officer shall solicit applications competitively by issuing a prospectus for persons to apply for a visitor services authorization. Notwithstanding Forest Service outfitting and guiding policy in Forest Service Handbook 2709.14, Chapter 50, when authorizations, including priority use permits for activities other than sport hunting and fishing, expire in accordance with their terms, they shall not be reissued if there is a need to limit use and when there is competitive interest by preferred operators.

Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Technical Corrections

AGENCY: Environmental Protection Agency (EPA).

ACTION: Partial withdrawal of direct final rule.

SUMMARY: Because the EPA received adverse comment on eight amendments in the direct final rule published on August 9, 2023, we are withdrawing amendments to specific provisions through correction to the direct final rule.

DATES: This correction is effective December 7, 2023.

FOR FURTHER INFORMATION CONTACT: Brian Knieser, U.S. Environmental Protection Agency, Office of Resource Conservation and Recovery, (MC: 5304T), 1200 Pennsylvania Avenue NW, Washington, DC 20460, (202) 566-0516, (*knieser.brian@epa.gov*) or Kathy Lett, U.S. Environmental Protection Agency, Office of Resource Conservation and Recovery, (MC: 5304T), 1200 Pennsylvania Avenue NW, Washington, DC 20460, (202) 566-0517, (*lett.kathy@epa.gov*).

SUPPLEMENTARY INFORMATION: Because the EPA received adverse comment on specific amendments, through this correction, we are withdrawing only those specific amendments from the direct final rule, Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Technical Corrections, published on August 9, 2023 (88 FR 54086). We stated in that direct final rule that if we received adverse comment by the close of the comment period on October 10, 2023, the specific amendments in the direct final rule that are the subject of adverse comment would not take effect, and we would publish a timely withdrawal in the **Federal Register**.

Because the EPA subsequently received adverse comment on eight amendments in that direct final rule, we are withdrawing only the eight affected amendments. All other amendments in that direct final rule will go into effect on the effective date (December 7, 2023). The eight specific amendments that are being withdrawn are:

1. Section 261.4(e)(1) introductory text related to sample waste generated or collected for the purpose of conducting treatability studies.

2. Section 262.11(d) introductory text related to identifying hazardous characteristics for listed hazardous wastes when the characteristic is already addressed by the listing.

3. Section 262.11(g) related to identifying hazardous characteristics for listed hazardous wastes when the characteristic is already addressed by the listing.

4. Section 262.16(b)(1) related to the accumulation limit for small quantity generators generating acute hazardous waste.

5. Section 262.17(a)(8)(i) introductory text related to LQG closure notification when closing a waste accumulation unit but not the whole facility.

6. Section 262.17(a)(8)(i)(A) related to LQG closure notification when closing a waste accumulation unit but not the whole facility.

7. Section 262.232(b)(6)(iv) related to adding “RCRA-” to the term “designated facility” to match the language of parallel provisions in this section.

8. Section 266.508(a)(2)(ii) related to allowing applicable EPA hazardous waste numbers (also known as waste codes) in addition to the required PHARMS code in item 13 of the hazardous waste manifest for shipments of hazardous waste pharmaceuticals from a healthcare facility subject to 40 CFR part 266 subpart P. We are also withdrawing language from this provision that allows the use of PHRM in lieu of PHARMS in item 13 of the hazardous waste manifest.

Except for the amendment to § 262.11 at instruction 25, which is withdrawn in full, because the provisions we are withdrawing appear in amendatory instructions affecting other provisions, we are correcting the corresponding amendments in full minus those provisions withdrawn.

The EPA published a parallel proposed rule on the same day as the direct final rule. The proposed rule invited comment on the substance of the direct final rule. We will address those comments in any subsequent final action, which will be based on the parallel proposed rule also published on
