BILLING CODE 9110-04-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG-2022-0222]

Drawbridge Operation Regulation; Okeechobee Waterway, Stuart, FL

AGENCY: Coast Guard, Department of Homeland Security (DHS).

ACTION: Notice of temporary deviation from regulations; modification.

SUMMARY: The Coast Guard is modifying a temporary deviation from the operating schedule that governs the Florida East Coast (FEC) Railroad Bridge, across the Okeechobee Waterway (OWW), mile 7.41, at Stuart, Florida. This modification extends the period the drawbridge may operate under the temporary deviation to the drawbridge operating schedule. This modification will allow the Coast Guard to review public comments and will provide continuity in the operation of the drawbridge until a determination is made if this temporary deviation will meet the reasonable needs of competing modes of transportation.

DATES: This deviation is effective from 12:01 a.m. on December 18, 2023, through 11:59 p.m. on February 11, 2024.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to <https://www.regulations.gov>, type the docket number (USCG-2022-0222) in the "SEARCH" box and click "SEARCH". In the Document Type column, select "Supporting & Related Material".

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Ms. Jennifer Zercher, Bridge Management Specialist, Seventh Coast Guard District; telephone 305-415-6740, email Jennifer.N.Zercher@uscg.mil.

SUPPLEMENTARY INFORMATION: The Florida East Coast (FEC) Railroad Bridge across the Okeechobee Waterway (OWW), mile 7.41, at Stuart, Florida, is a single-leaf bascule bridge with a six-foot vertical clearance at mean high water in the closed position. The normal

operating schedule for the bridge is found in 33 CFR 117.317(c).

On August 11, 2023, the Coast Guard published a temporary deviation entitled "Drawbridge Operation Regulation; Okeechobee Waterway, Stuart, FL" in the **Federal Register** (88 FR 54487). That temporary deviation, effective from 12:01 a.m. on August 15, 2023, through 11:59 p.m. on December 17, 2023, allows the drawbridge to operate on a more predictable schedule due to the significant increase in railway activity.

On November 7, 2023, the Coast Guard published a notice reopening the comment period until November 30, 2023, because service was delayed on the passenger train (88 FR 76666).

The Coast Guard has determined an extension of the temporary deviation is necessary to allow for the review of public comments, while providing continuity in the operation of the drawbridge until a determination is made if this temporary deviation will meet the reasonable needs of competing modes of transportation.

Under this temporary deviation modification from 12:01 a.m. on December 18, 2023, through 11:59 p.m. on February 11, 2024, the FEC Railroad Bridge will be maintained in the fully open-to-navigation position, except during periods when it is closed for the passage of train traffic, to conduct inspections, and to perform maintenance and repairs authorized by the Coast Guard. However, the bridge will not be closed for more than 50 consecutive minutes in any given hour during daytime operations (6 a.m. to 10 p.m.) and for more than 8 total hours during daytime operations (6 a.m. to 10 p.m.).

Notwithstanding the above paragraph, the drawbridge will open and remain open to navigation for a fixed 10-minute period at the top of each hour from 6 a.m. to 10 p.m. In addition, the drawbridge will open and remain open to navigation for a fixed 15-minute period as outlined in the table below:

TABLE 1

Monday through Friday:	8:55 a.m. through 9:10 a.m.
Saturday and Sunday:	8:55 a.m. through 9:10 a.m.
	9:55 a.m. through 10:10 a.m.
	10:55 a.m. through 11:10 a.m.
	12:55 p.m. through 1:10 p.m.
	4:55 p.m. through 5:10 p.m.

From 10:01 p.m. until 5:59 a.m. daily, the drawbridge will remain in the fully open-to-navigation position, except during periods when it is closed for the

passage of train traffic, to conduct inspections, and to perform maintenance and repairs authorized by the Coast Guard. The drawbridge will not be closed more than 60 consecutive minutes.

If a train is in the track circuit at the start of a fixed opening period, the opening may be delayed up to, but not more than, five minutes. Once the train has cleared the circuit, the bridge must open immediately for navigation to begin the fixed opening period.

In the event of a drawbridge operational failure, or other emergency circumstances impacting normal drawbridge operations, the drawbridge owner will immediately notify the Coast Guard Captain of the Port Miami and provide an estimated time of repair and return to normal operations.

The drawbridge will be tended from 6 a.m. to 10 p.m., daily. The bridge tender will monitor VHF-FM channels 9 and 16 and will provide estimated times of drawbridge openings and closures, or any operational information requested. Operational information will be provided 24 hours a day by telephone at (772) 403-1005.

The drawbridge owner will maintain a mobile application. The drawbridge owner will publish drawbridge opening times, and the drawbridge owner will provide timely updates to schedules, including but not limited to, impacts due to emergency circumstances, inspections, maintenance, and repairs authorized by the Coast Guard.

Signs will be posted and visible to marine traffic, displaying VHF radio contact information, application information, and the telephone number for the bridge tender.

A drawbridge logbook will be maintained including the date and time of each closing and opening of the draw. The drawbridge logbook will also include all maintenance opening, closings, malfunctions, or other comments. During the temporary deviation, a copy of the drawbridge logbook for the previous week will be provided to the Seventh Coast Guard District Bridge Manager by 4:00 p.m. each Monday.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedules immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulation is authorized pursuant to 33 CFR 117.35(a).

Dated: December 3, 2023.

Douglas M. Schofield,

*Rear Admiral, U.S. Coast Guard, Commander,
Coast Guard Seventh District.*

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[Docket No. USCG-2023-0938]

Safety Zone; Sausalito Lighted Boat Parade Fireworks Display, Richardson Bay, Sausalito, CA

AGENCY: Coast Guard, Department of Homeland Security (DHS).

ACTION: Notification of enforcement of regulation.

SUMMARY: The Coast Guard will enforce the safety zone in the navigable waters of Richardson Bay, off Sausalito, CA, in support of the Sausalito Lighted Boat Parade Fireworks Display. This safety zone is necessary to protect personnel, vessels, and the marine environment from the dangers associated with pyrotechnics. During the enforcement period, unauthorized persons or vessels are prohibited from entering into, transiting through, or remaining in the safety zone, unless authorized by the designated Patrol Commander (PATCOM) or other Federal, state, or local agencies on scene to assist the Coast Guard in enforcing the regulated area.

DATES: The regulations in 33 CFR 165.1191, will be enforced for the location in Table 1 to § 165.1191, Item number 30, from 7:15 p.m. through 9 p.m. on December 9, 2023.

FOR FURTHER INFORMATION CONTACT: If you have questions about this notification of enforcement, call or email LT William Harris, U.S. Coast Guard Sector San Francisco Waterways Management Division; telephone 415-399-7443, email SFWaterways@uscg.mil.

SUPPLEMENTARY INFORMATION: The Coast Guard will enforce the safety zone established in 33 CFR 165.1191, Table 1, Item number 30, for the Sausalito Lighted Boat Parade Fireworks on December 9, 2023. The Coast Guard will enforce a 600-foot safety zone around the fireworks vessel from 7:15 through 9 p.m. on December 9, 2023, while at the launch site off Sausalito Point. Beginning at 7:15 p.m. on December 9, 2023, 30 minutes prior to the

commencement of the 15-minute fireworks display, the safety zone will encompass all navigable waters, from surface to bottom, surrounding the fireworks vessel near Sausalito Point in Sausalito, CA within a radius of 600 feet from approximate position 37°51'30.66" N, 122°28'27.29" W (NAD 83) for the Sausalito Lighted Boat Parade Fireworks Display as set forth in 33 CFR 165.1191, Table 1, Item number 30. The safety zone will be enforced from 7:15 p.m. through 9 p.m. on December 9, 2023.

In addition to this notification of enforcement in the **Federal Register**, the Coast Guard plans to provide notification of this enforcement period via the Local Notice to Mariners and Marine Information Broadcast.

Under the provisions of 33 CFR 165.1191, unauthorized persons or vessels are prohibited from entering into, transiting through, or anchoring in the safety zone during all applicable effective dates and times, unless authorized to do so by the PATCOM or other Official Patrol defined as Federal, State, or local law enforcement agency on scene to assist the Coast Guard in enforcing the regulated area. Additionally, each person who received notice of a lawful order or direction issued by the PATCOM or Official Patrol shall obey the order or direction. The PATCOM or Official patrol may, upon request, allow the transit of commercial vessels through regulated areas when it is safe to do so.

If the Captain of the Port determines that the regulated area need not be enforced for the full duration stated in this notice, a Marine Information Broadcast, an entry in the Local Notice to Mariners, or actual notice may be used to grant permission to enter the regulated area.

Dated: November 30, 2023.

Taylor Q. Lam,

Captain, U.S. Coast Guard, Captain of the Port San Francisco.

BILLING CODE 9110-04-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R06-OAR-2019-0212; FRL-10997-02-R6]

Air Plan Disapproval; Louisiana; Excess Emissions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: Pursuant to the Federal Clean Air Act (CAA or the Act), the Environmental Protection Agency (EPA) is disapproving a State Implementation Plan (SIP) revision submitted by the State of Louisiana, through the Louisiana Department of Environmental Quality (LDEQ), on November 20, 2016, and supplemented on June 9, 2017. The submittals were in response to the EPA's national SIP call on June 12, 2015, concerning excess emissions during periods of Startup, Shutdown, and Malfunction (SSM). EPA is finalizing a determination that the revision to the SIP in the submittals does not correct the deficiency with the Louisiana SIP identified in the June 12, 2015 SIP call. We are taking this action in accordance with section 110 of the Act.

DATES: This rule is effective on January 8, 2024.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R06-OAR-2019-0212. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet. Publicly available docket materials are available electronically through <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: Mr. Alan Shar, Regional Haze and SO₂ Section, EPA Region 6 Office, 1201 Elm Street, Suite 500, Dallas, Texas 75270, (214) 665-6691, Shar.alan@epa.gov. Please call or email the contact listed above if you need alternative access to material indexed but not provided in the docket.

SUPPLEMENTARY INFORMATION:

Throughout this document "we," "us," and "our" means the EPA.

I. Background

The background for this action is discussed in detail in our June 13, 2023 (88 FR 38448) proposal where we proposed to disapprove a revision to the Louisiana SIP, which requested the removal of section LAC 33:III.2201.C.8 and approval of a new section, LAC 33:III.2201.K, titled Startup and Shutdown, in its place.¹ LAC

¹ LAC 33:III.2201.K Startup and Shutdown

"1. For affected point sources that are shut down intentionally more than once per month, the owner or operator shall include NO_x emitted during periods of start-up and shutdown for purposes of determining compliance with the emission factors set forth in Subsection D of this Section, or with
