

HUD is adding to the collection two (2) documents (HUD–5985L and HUD–5985B) that will be used to facilitate uniform electronic closings of FHA-insured commercial mortgage closings, allow for the use of digital signatures and digital records where they are consistent with program obligations, and determine the parties’ compliance with applicable legal requirements and therefore ensure protection of the FHA insurance fund; and one (1) document (HUD–5985IRR) that will be used by the FHA Lender to certify to HUD certain conditions required as part of a request to reduce the interest rate of an existing FHA-insured commercial mortgage (often due to market fluctuations that lower the interest rate and save the project money by making this reduction). In addition, the name of this collection is being changed from COVID19 HUD Contingency Plan for HUD Multifamily Rental Project Closing Documents to Electronic Closing and Continued First Lien Priority Certificates for FHA-Insured Commercial Mortgage Transactions.

On June 2, 2023, we published in the **Federal Register** (88 FR 36328) a notice

of our intent to request that OMB approve this information collection. In that notice, we solicited comments for 60 days, ending on August 1, 2023. In an effort to increase public awareness of, and participation in, our public commenting processes associated with information collection requests, the Service also published the **Federal Register** notice on [Regulations.gov](https://www.regulations.gov) (Docket No. FWS-HQ-MB-2023-0085) to provide the public with an additional method to submit comments (in addition to the typical Info_Coll@fws.gov email and U.S. mail submission methods). We received four comments in response to that notice which did not address the information collection requirements. No responses are required to those comments.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request
