

For-hire fishing effort is estimated in numbers of angler-trips per sub-region, state, two-month wave, vessel type, and fishing area (inshore, nearshore, offshore). To get a total for-hire effort estimate, weekly FHS effort estimates are summed to produce wave estimates that are adjusted to account for frame coverage and reporting error. The FHS estimates are then combined with for-hire catch-rate estimates derived from complementary Marine Recreational Information Program (MRIP) surveys, to estimate total, state-level fishing catch. These estimates are used in the development, implementation, and monitoring of fishery management programs by the NMFS, regional fishery management councils, interstate marine fisheries commissions, and state fishery agencies.

Title of Collection: Study of District and School Uses of Federal Education Funds.

OMB Control Number: 1850-0951.

Type of Review: An extension without change of a currently approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 250.

Total Estimated Number of Annual Burden Hours: 1,630.

Abstract: Federal funds account for less than 10 percent of K-12 education spending nationally but can play an

important role, particularly in communities that are lower-income or have lower-performing schools. Although each federal education program has unique goals and provisions, they often allow funds to be used for similar purposes and services or overlapping populations. Congress provided state and local education agencies greater flexibility in their use of federal funds through the 2015 reauthorization of the Elementary and Secondary Education Act (ESEA). As the COVID-19 pandemic began to disrupt schools in 2020, Congress also created new programs to provide funding and flexibilities for states and districts to respond to the emergency. Because policymakers remain interested in how federal dollars are spent, this study will examine the distribution and use of pandemic relief funds and explore the possibility of examining those issues for five "core" federal education programs that represent the vast share of the Department's K-12 grant making: Part A of Titles I, II, III, and IV of ESEA, and Title I, Part B of the Individuals with Disabilities Education Act (IDEA).
