History

The FAA published a final rule in the **Federal Register** (88 FR 47361, July 24, 2023; corrected September 26, 2023 (FR 88 65797)) for Doc. No. FAA-2023-1186, amending Class E airspace extending upward from 700 feet above the surface for Polk County Airport/Cornelius Moore Field, Cedartown, Georgia, as a new instrument approach procedure has been designed for this airport. After publication, the FAA found the listed title associated with the airspace indicated Florida (FL) instead of Georgia (GA). This action corrects this error.

Correction to the Final Rule

Accordingly, pursuant to the authority delegated to me, the amendment of Class E airspace for Polk County Airport/Cornelius Moore Field, Cedartown, GA, in Docket No. FAA-2023-1186, as published in the **Federal Register** on July 24, 2023 (88 FR 47361; corrected September 26, 2023 (FR 88 65797)), is corrected in the **Federal Register** of July 24, 2023 (88 FR 47361) as follows:

§ 71.1 [Corrected]

■ On page 47362, in the first column, the title of “ASO FL E5 Cedartown, GA [Amended]” is corrected to read:

* * * * *

ASO GA E5 Cedartown, GA [Amended]

* * * * *

Issued in College Park, Georgia, on December 1, 2023.

Revocation of Uses of Partially Hydrogenated Oils in Foods; Confirmation of Effective Date

AGENCY: Food and Drug Administration, HHS.

ACTION: Direct final rule; confirmation of effective date.

SUMMARY: The Food and Drug Administration (FDA or we) is confirming the effective date of December 22, 2023, for the final rule that appeared in the **Federal Register** of August 9, 2023. The direct final rule amends our regulations to no longer provide for the use of partially hydrogenated oils (PHOs) in food given our determination that PHOs are no longer generally recognized as safe (GRAS). The rule also revokes prior sanctions (*i.e.*, pre-1958 authorization of certain uses) for the use of PHOs in margarine, shortening, and bread, rolls, and buns based on our conclusion that these uses of PHOs may be injurious to health. This document confirms the effective date of the direct final rule.

DATES: The effective date of December 22, 2023, for the direct final rule published in the **Federal Register** of August 9, 2023 (88 FR 53764) is confirmed.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of August 9, 2023 (88 FR 53764), FDA issued a direct final rule amending its regulations that provide for the use of PHOs given our determination that PHOs are no longer GRAS and revoking prior sanctions (*i.e.*, pre-1958 authorization of certain uses) for the use of PHOs in margarine, shortening, and bread, rolls, and buns based on our conclusion that these uses of PHOs may be injurious to health. The direct final rule provided a 75-day

comment period ending October 23, 2023. We stated that the effective date of the direct final rule would be on December 22, 2023, 60 days after the end of the comment period, unless any significant adverse comment was submitted to FDA during the comment period. We did not receive any significant adverse comments.

Authority: 21 U.S.C. 321, 341, 342, 343, 348, 371, 379e. Accordingly, the amendments issued thereby are effective on December 22, 2023.

Dated: December 11, 2023.
