

Stillaguamish River in the vicinity of Stanwood, WA. The material was collected as part of the Jesup Expedition and subsequently accessioned at the AMNH. Biological and archeological evidence suggests that the individuals excavated by Smith lived sometime during the Prehistoric Period. The 15 associated funerary objects are four shells, including a mussel shell; one stone; two grit stones; one stone pestle; two antler wedges; one piece of antler; one bone implement; one bone harpoon barb; one animal tooth; and one animal upper jaw fragment.

Cultural Affiliation

The human remains and associated funerary objects in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: anthropological information, archeological information, biological information, geographical information, historical information, linguistics, oral tradition, and expert opinion.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, the AMNH has determined that:

- The human remains described in this notice represent the physical remains of 16 individuals of Native American ancestry.
- The 15 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a relationship of shared group identity that can be reasonably traced between the human remains and associated funerary objects described in this notice and the Stillaguamish Tribe of Indians of Washington; Swinomish Indian Tribal Community; Tulalip Tribes of Washington; and the Upper Skagit Indian Tribe.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after January 18, 2024. If competing requests for repatriation are received, the AMNH must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The AMNH is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of NYU College of Dentistry. The National Park Service is not responsible for the determinations in this notice. Additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records held by NYU College of Dentistry.

Description

Human remains representing, at minimum, one individual were removed from Rockaway in Queens County, NY. The human remains of one individual were excavated at an unknown date by an unknown individual. The human remains have a label adhered to them that contains the number "999." J. Carton Brevoort donated the human remains to the Museum of American Indian, and they were catalogued into the Department of Physical Anthropology at the Museum of American Indian in 1921. In 1956, the human remains were transferred to NYU College of Dentistry. No associated funerary objects are present.

Human remains representing, at minimum, one individual were removed from Burr Reynolds Farm in Poughquag, Long Island, Dutchess County, NY. The human remains of one individual were excavated at an unknown date by an unknown individual. No donor is listed. The human remains are not catalogued in the ledger of the Department of Physical Anthropology at the Museum of the American Indian, but a label with the object identifies the locality and states that the human remains were donated in the winter of 1940-1941. In 1956, the human remains were transferred to the NYU College of Dentistry. No associated funerary objects are present.

Human remains representing, at minimum, one individual were removed from Weir Creek Mound, Throgg's Neck, Bronx County, NY. The human remains were excavated at an unknown date by an unknown individual. E.O. Sugden donated the human remains to the Museum of American Indian, and they were catalogued into the Department of Physical Anthropology at the Museum of American Indian in 1920.

Aboriginal Land

The human remains in this notice were removed from known geographic locations. These locations are the

aboriginal lands of one or more Indian Tribes. The following information was used to identify the aboriginal land: treaties and expert testimony.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes, NYU College of Dentistry has determined that:

- The human remains described in this notice represent the physical remains of three individuals of Native American ancestry.
- No relationship of shared group identity can be reasonably traced between the human remains and associated funerary objects and any Indian Tribe.
- The human remains and associated funerary objects described in this notice were removed from the aboriginal land of the Delaware Nation, Oklahoma; Delaware Tribe of Indians; and the Stockbridge Munsee Community, Wisconsin.

Requests for Disposition

Written requests for disposition of the human remains in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for disposition may be submitted by:

1. Any one or more of the Indian Tribes identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization, or who shows that the requestor is an aboriginal land Indian Tribe.

Disposition of the human remains described in this notice to a requestor may occur on or after January 18, 2024. If competing requests for disposition are received, NYU College of Dentistry must determine the most appropriate requestor prior to disposition. Requests for joint disposition of the human remains are considered a single request and not competing requests. NYU College of Dentistry is responsible for sending a copy of this notice to the Indian Tribes identified in this notice.

Description

In 1968, human remains were removed from site 38PN1, Fort Prince George, Pickens County, SC, by Mr. John D. Combes of SCIAA, during the Keowee Toxaway Reservoir salvage excavations conducted for Duke Power Company of Charlotte, NC. These individuals were listed in a Notice of Inventory Completion published in the **Federal Register** on July 7, 2023 (88 FR 4204-4205) and have been repatriated. Subsequently, one associated funerary object was discovered in SCIAA collections, consisting of one lot of faunal material.

In 1967, human remains representing, at minimum, 20 individuals were removed from site 38PN2, I.C. Few, Pickens County, SC, by Dr. Robert T. Grange, Jr. of the Department of Anthropology, University of South Florida, Tampa, during the Keowee Toxaway Reservoir salvage excavations conducted by SCIAA for Duke Power Company of Charlotte, NC. The five associated funerary objects are one lot consisting of shell material, one lot consisting of faunal material, one lot consisting of lithic material, one lot of charcoal, and one lot consisting of ceramic material.

In 1967, human remains representing, at minimum, one individual were removed from site 38PN4, Rock Turtle, Pickens County, SC, by Dr. William E. Edwards of SCIAA, during the Keowee Toxaway Reservoir salvage excavations conducted by SCIAA for Duke Power Company of Charlotte, NC. The six associated funerary objects are one lot consisting of metal material, one lot consisting of ceramic material, one lot consisting of glass material, one lot consisting of lithic material, one lot consisting of soil, and one lot consisting of charcoal.

In 1967, one associated funerary object was removed from site 38PN34, the Pot Site, Pickens County, SC, by Mr. John D. Combes of SCIAA, during the Keowee Toxaway Reservoir salvage excavations conducted by SCIAA for Duke Power Company of Charlotte, NC. The one associated funerary object is one lot consisting of ceramic material.

Cultural Affiliation

The human remains and associated funerary objects in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: anthropological information, archeological information, and historical information.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, the SCIAA has determined that:

- The human remains described in this notice represent the physical remains of 21 individuals of Native American ancestry.
