Portion of Operating Budget Covered by:	FCUs	FISCUs
FCU Operating Fee	37.6%	0.0%
OTR × Percent of Insured Shares	31.1% (62.4% × 49.9%)	31.3% (62.4% × 50.1%)
Total	68.7%	31.3%

Table 1 reflects the NCUA's annual budget of \$355.4 million for the 2023 budget year. The FCU Act authorizes a portion of the NCUA's budget to be funded through a requisition from the Share Insurance Fund (OTR 62.4 percent), while the remaining 37.6 percent will be charged to FCUs as an operating fee in 2023.

The industry has voiced concern about the NCUA's presentation of the OTR in the annual budget posted to the agency's website because it believes the current footnoted reference to the regulatory fees that FISCUs pay their respective prudential regulator is insufficient.²³ The NCUA's intention in presenting the distribution of the operating budget costs in this request for comment is to clarify how the NCUA funds its annual operations between (1) requisition from the Share Insurance Fund and (2) operating fees paid by FCUs.

The NCUA does not intend to discount the fact that FISCUs also pay a regulatory fee to their respective regulators. In presenting this information, the agency welcomes the industry's feedback on the current method.

Commenters also noted that the current cost distribution table (Table 2) uses insured shares to reflect the distribution of the OTR among FCUs versus FISCUs, and while total insured shares are relatively equal among charter type, there are fewer FISCUs than there are FCUs.

First, the NCUA would like to clarify the requisition from the Share Insurance Fund is not allocated based on charter type. The current cost distribution table is for informational purposes only and is used to show how the portion of the NCUA's budget funded by the Share Insurance Fund would be broken down among charter types. The NCUA shows this breakdown using insured shares to reflect that FISCUs' economic interest in the insurance fund is *pro-rata* based on insured shares.

The NCUA Board welcomes comment on alternative ways to present this information publicly.

Request for Comment on the OTR Methodology

The principles-based OTR methodology has streamlined the OTR calculation process and has reduced the needed resources to gather the cost-center time allocation used in the calculation.²⁴ It has also made the OTR easier for stakeholders to understand. The methodology additionally has led to reduced variability in the calculated OTR each year.

The added detail, transparency, and clarifying statements in this request for comment aim to address the industry interest regarding transparency and improved understanding of the allocation of insurance-related expenses among charter types. The Board welcomes comment on all aspects of the OTR methodology—including on the four principles, added detail, and clarifying statements discussed in this request for comment—as well as any suggested alternatives.

The Board is also particularly interested in comments on whether it should continue to publish a dedicated notice requesting comment on the OTR methodology every 3 years. Alternatively, in circumstances when the Board does not intend to make changes to the OTR methodology, the NCUA could ask for comments on the OTR methodology triennially along with its long-standing one-third regulatory review process; rely on the public's opportunity to request action under 12 CFR 790.3 or petition the Board for changes under § 791.8(c); or a combination of these opportunities. The Board also now annually publishes, requests comments on, and holds a public hearing on its budget. These comments and hearing, in turn, provide further opportunity for individuals to comment on the OTR methodology as part of the budgeting process. While the specific triennial process dedicated to

²⁴ The NCUA included reference to this estimated cost savings in the Notice and Request for Comment dated June 30, 2017. "Based on the most recent Examination Time Survey results, field staff time would be reduced by approximately 200 hours annually. Central office and regional office staff time devoted to operating, maintaining, and administering the Examination Time Survey and related processes would be reduced by approximately 150 hours annually." 82 FR 29943 (June 30, 2017).

the OTR has served well over the last number of years, the Board requests input on whether another process may prove more efficient and save resources for both credit unions and the NCUA while still maintaining transparency on the OTR methodology. Whenever the Board considers any changes to the OTR methodology, it would continue to seek comment through a **Federal Register** notice specific to the OTR.

II. Current Actions

This Notice is to solicit comments on a program evaluation of the IMLS Museums for All Initiative, which began in 2014. A current IMLS cooperative agreement includes an evaluation of the Museums for All initiative, a program through which participating institutions offer free or reduced-price admission to families facing financial need. The goal is to assess the impact of the Museums for All initiative on participating institutions. As part of this evaluation effort, a questionnaire, which is the subject of this Notice, will be undertaken to solicit information from participating institutions in Museums for All about the initiative's implementation, benefits, and areas for improvement. A small number of participating institution staff will be interviewed virtually or in person as part of case study research. These information collections will be developed based on what is needed to undertake the evaluation. The information IMLS collects will build on, but not duplicate existing or ongoing information collections.
