SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-99195; File No. SR-CboeBZX-2023-069]

Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Order Instituting Proceedings To Determine Whether To Approve or Disapprove a Proposed Rule Change To List and Trade Shares of the VanEck Ethereum ETF Under BZX Rule 14.11(e)(4), Commodity-Based Trust Shares

December 18, 2023.

On September 6, 2023, Cboe BZX Exchange, Inc. ("BZX" or "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule

change to list and trade shares ("Shares") of the VanEck Ethereum ETF ("Trust") under BZX Rule 14.11(e)(4), Commodity-Based Trust Shares. The proposed rule change was published for comment in the **Federal Register** on September 26, 2023.³

On September 27, 2023, pursuant to Section 19(b)(2) of the Act,⁴ the Commission designated a longer period within which to approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether to disapprove the proposed rule change.⁵ This order institutes proceedings under Section 19(b)(2)(B) of the Act⁶ to determine whether to approve or disapprove the proposed rule change.

I. Summary of the Proposal

As described in more detail in the Notice,⁷ the Exchange proposes to list and trade the Shares of the Trust under BZX Rule 14.11(e)(4), which governs the listing and trading of Commodity-Based Trust Shares on the Exchange.

The investment objective of the Trust is for the Shares to reflect the performance of the MarketVector™ Ethereum Benchmark Rate ("Benchmark") less the expenses of the Trust's operations.⁸ The Trust's assets will consist of ether held by the Trust's custodian on behalf of the Trust.⁹ The Trust will value its Shares daily based on the reported Benchmark.¹⁰ The administrator of the Trust will determine the net asset value ("NAV") of the Trust on each day that the Exchange is open for regular trading, as promptly as practicable after 4:00 p.m. ET.¹¹ In determining the Trust's NAV, the administrator values the ether held by the Trust based on the price set by the Benchmark as of 4:00 p.m. ET.¹² When the Trust sells or redeems its Shares, it will do so in "in-kind"

II. Proceedings To Determine Whether To Approve or Disapprove SR-CboeBZX-2023-069 and Grounds for Disapproval Under Consideration

The Commission is instituting proceedings pursuant to Section 19(b)(2)(B) of the Act¹⁴ to determine whether the proposed rule change should be approved or disapproved. Institution of proceedings is appropriate at this time in view of the legal and policy issues raised by the proposed rule change, as discussed below. Institution of proceedings does not indicate that the Commission has reached any conclusions with respect to any of the issues involved. Rather, as described below, the Commission seeks and encourages interested persons to provide comments on the proposed rule change.

Pursuant to Section 19(b)(2)(B) of the Act,¹⁵ the Commission is providing notice of the grounds for disapproval under consideration. The Commission is instituting proceedings to allow for additional analysis of the proposed rule change's consistency with Section 6(b)(5) of the Act, which requires, among other things, that the rules of a national securities exchange be "designed to prevent fraudulent and manipulative acts and practices" and "to protect investors and the public interest."¹⁶

The Commission asks that commenters address the sufficiency of the Exchange's statements in support of the proposal, which are set forth in the Notice, in addition to any other comments they may wish to submit about the proposed rule change. In particular, the Commission seeks comment on the following questions and asks commenters to submit data where appropriate to support their views:

1. Given the nature of the underlying assets held by the Trust, has the Exchange properly filed its proposal to list and trade the Shares under BZX Rule 14.11(e)(4), Commodity-Based Trust Shares?¹⁷

2. The Exchange raises substantially similar arguments to support the listing and trading of the Shares as those made in proposals to list and trade spot bitcoin exchange-traded products (“Bitcoin ETPs”). Do commenters agree that arguments to support the listing of Bitcoin ETPs apply equally to the Shares? Are there particular features related to ether and its ecosystem, including its proof of stake consensus mechanism and concentration of control or influence by a few individuals or entities, that raise unique concerns about ether’s susceptibility to fraud and manipulation?

3. What are commenters’ views on whether the proposed Trust and Shares would be susceptible to manipulation? What are commenters’ views generally on whether the Exchange’s proposal is designed to prevent fraudulent and manipulative acts and practices? What are commenters’ views generally with respect to the liquidity and transparency of the ether markets and the ether markets’ susceptibility to manipulation?

4. Based on data and analysis provided by the Exchange,¹⁸ do commenters agree with the Exchange that the Chicago Mercantile Exchange (“CME”), on which CME ether futures trade, represents a regulated market of significant size related to spot ether?¹⁹ What are commenters’ views on whether there is a reasonable likelihood that a person attempting to manipulate the Shares would also have to trade on the CME to manipulate the Shares?²⁰ Do commenters agree with the Exchange that trading in the Shares would not be the predominant influence on prices in the CME ether futures market?²¹

5. The Exchange states that ether is resistant to price manipulation and that other means to prevent fraudulent and manipulative acts and practices “exist to justify dispensing with the requisite surveillance sharing agreement” with a regulated market of significant size related to spot ether.²² In support, the Exchange states, among other things, that the geographically diverse and continuous nature of ether trading make it difficult and prohibitively costly to manipulate the price of ether, and that the fragmentation across ether platforms, the relatively slow speed of transactions, and the capital necessary to maintain a significant presence on each trading platform make

number, may be redeemed at a holder’s request by such trust which will deliver to the redeeming holder the quantity of the underlying commodity.

manipulation of ether prices through continuous trading activity challenging.²³ Do commenters agree with the Exchange’s statements regarding the ether market’s resistance to price manipulation?

6. The Exchange also states that it will execute a surveillance-sharing agreement with Coinbase, Inc. (“Coinbase”) that is intended to supplement the Exchange’s market surveillance program.²⁴ According to the Exchange, the agreement is “expected to have the hallmarks of a surveillance-sharing agreement between two members of the [Intermarket Surveillance Group], which would give the Exchange supplemental access to data regarding spot [ether] trades on Coinbase where the Exchange determines it is necessary as part of its surveillance program for the Commodity-Based Trust Shares.”²⁵ Based on the description of the surveillance-sharing agreement as provided by the Exchange, what are commenters’ views of such an agreement if finalized and executed? Do commenters agree with the Exchange that such an agreement with Coinbase would be “helpful in detecting, investigating, and deterring fraud and market manipulation in the Commodity-Based Trust Shares”?²⁶

7. The Exchange states that the “Sponsor’s research indicates daily correlation between the spot [ether] and the CME [ether] [f]utures is 0.998.”²⁷ The Exchange further states that this “high correlation” indicates that there is a reasonable likelihood that a person attempting to manipulate the Trust would also have to trade on the CME ether futures market.²⁸ What are commenters’ views on the correlation between the ether spot market and the CME ether futures market? What are commenters’ views on the extent to which a surveillance-sharing agreement with the CME would assist in detecting and deterring fraud and manipulation that impacts an exchange-traded product (“ETP”) that holds spot ether, and on whether the Sponsor’s daily price correlation analysis provides any evidence to this effect? What are commenters’ views generally on

III. Procedure: Request for Written Comments

The Commission requests that interested persons provide written submissions of their views, data, and arguments with respect to the issues identified above, as well as any other concerns they may have with the proposal. In particular, the Commission invites the written views of interested persons concerning whether the proposal is consistent with Section 6(b)(5) or any other provision of the Act, and the rules and regulations thereunder. Although there do not appear to be any issues relevant to approval or disapproval that would be facilitated by an oral presentation of views, data, and arguments, the Commission will consider, pursuant to Rule 19b–4, any request for an opportunity to make an oral presentation.²⁹

Interested persons are invited to submit written data, views, and arguments regarding whether the proposed rule change should be approved or disapproved by January 12, 2024. Any person who wishes to file a rebuttal to any other person’s submission must file that rebuttal by January 26, 2024.
