

the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before January 22, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: Michael Howell by telephone at 202–693–6782, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The reporting and recordkeeping provisions in 30 CFR 50, Notification, Investigation, Reports and Records of Accidents, Injuries and Illnesses, Employment and Coal Production in Mines, are essential elements in MSHA’s statutory mandate to reduce work-related injuries and illnesses among the nation’s miners (30 U.S.C. 801). Part 50 applies to operators of coal, metal, and nonmetal mines. It requires operators to immediately notify MSHA of accidents, investigate accidents and restrict disturbance of accident-related areas. This part also requires operators to file reports with MSHA pertaining to accidents, occupational injuries, and occupational illnesses, as well as employment and coal production data, and requires operators to maintain copies of reports at mine offices. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on September 21, 2023 (88 FRN 65196).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is

generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

Agency: DOL–MSHA.

Title of Collection: Mine Accident, Injury, and Illness Report and Quarterly Mine Employment and Coal Production Report.

OMB Control Number: 1219–0007.

Affected Public: Businesses or other for-profits.

Number of Respondents: 20,953.

Frequency: On occasion.

Number of Responses: 98,389.

Annual Burden Hours: 117,903 hours.

Total Estimated Annual Other Costs Burden: \$3,009.

(Authority: 44 U.S.C. 3507(a)(1)(D))

DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Examinations and Testing of Electrical Equipment, Including Examination, Testing, and Maintenance of High Voltage Longwalls

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Mine Safety and Health Administration (MSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before January 22, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) whether the collection of information is

necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: Michael Howell by telephone at 202–693–6782, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: Section 103(h) of the Mine Act, 30 U.S.C. 813, authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. It has long been known that inadequate maintenance of electric equipment is a major cause of serious electrical accidents in the coal mining industry. MSHA regulations require the mine operator to establish an electrical maintenance program by specifying minimum requirements for the examination, testing, and maintenance of electric equipment. The regulations also contain recordkeeping requirements that help operators in implementing an effective maintenance program. This ICR requires coal mine operators to frequently exam, test, and properly maintain all electrical equipment and high voltage longwall mining systems and to keep records of the examinations and tests. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on July 24, 2023 (88 FRN 47520).

This information collection is subject to the PRA. DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Hoist Operators' Physical Fitness

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Mine Safety and Health Administration (MSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before January 22, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: Michael Howell by telephone at 202–

693–6782, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: 30 CFR 56.19057 and 57.19057 require the annual examination and certification of hoist operators' fitness by a qualified, licensed physician. The information is used by mine operators and MSHA enforcement personnel to verify that persons operating hoisting equipment are physically able to safely perform their functions. If MSHA cannot verify that hoist operators are capable of performing their assigned tasks, the individuals themselves, and those requiring hoisting into or out of a mine, may be at risk. Hoist operators provide a critical service to all personnel and equipment going into and out of some surface and underground mines, as well as emergency responders on an as-needed basis. Improper hoisting, caused by the inability of a hoist operator to function effectively due to a medical problem, can cause serious injury or death. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 1, 2023 (88 FRN 50180).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. BILLING CODE 4510–43–P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (23–125)]

Nationwide Programmatic Agreement Regarding the Management of NASA Assets

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of availability (NOA) for a proposed nationwide programmatic agreement; request for comments.

SUMMARY: NASA is proposing a nationwide programmatic agreement (NPA), among NASA, the Advisory Council on Historic Preservation (ACHP) and the National Conference of State Historic Preservation Officers (NCSHPO) for management of NASA assets. The purpose of the NPA is to create a process by which NASA can meet its responsibilities to manage its U.S. real property assets under sections 106 and 110 of the National Historic Preservation Act (NHPA) in a manner that accommodates NASA's mission and addresses the unique challenges of historic highly technical and scientific facilities (HTSF). The need for a tailored process became more essential in 2015, when the Office of Management and Budget released the “National Strategy for the Efficient Use of Real Property” and the companion policy, “Reduce the Footprint”, which requires Federal agencies to dispose of surplus properties, make more efficient use of the Government's real property assets, and reduce the total square footage of their domestic office and warehouse inventory relative to an established baseline. NASA requests comments on the proposed agreement.

DATES: Comments should be received by January 24, 2024.

ADDRESSES: The Draft NPA is available for review at <https://www.nasa.gov/emd/npa-drafts/>. We encourage you to submit comments on the NPA via electronic mail to hq-crm@mail.nasa.gov. Comments may also be sent by mail Attention: Office of the General Counsel, (General Law—Curtis Borland), Mary W. Jackson NASA Headquarters, 300 E St. SW, Washington, DC 20546. Please note that correspondence sent by mail may encounter delays in receipt by the agency.

FOR FURTHER INFORMATION CONTACT: Dr. Rebecca Klein, Federal Preservation Officer, by electronic mail at hq-crm@mail.nasa.gov or 202.816.0020.

SUPPLEMENTARY INFORMATION: The NPA has been developed as a management approach that addresses the full range of
