

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive:

The Boeing Company: Docket No. FAA–2023–2398; Project Identifier AD–2023–00423–T.

(a) Comments Due Date

The FAA must receive comments on this airworthiness directive (AD) by February 5, 2024.

(b) Affected ADs

None.

(c) Applicability

This AD applies to all The Boeing Company Model 787–8, 787–9, and 787–10 airplanes, certificated in any category.

(d) Subject

Air Transport Association (ATA) of America Code 35, Oxygen.

(e) Unsafe Condition

This AD was prompted by a report indicating that the oxygen supply tubing can become kinked when certain passenger service unit (PSU) oxygen panel assemblies are installed in the forward-most position of a center stow bin. The FAA is issuing this AD to address incorrect installation of the oxygen supply tubing in the PSU oxygen panel assemblies. The unsafe condition, if not addressed, could result in kinked tubing and consequent injury of the airplane's passengers because of a lack of supplemental oxygen during a cabin depressurization event.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Inspection of the Affected Parts

For airplanes identified in Boeing Alert Requirements Bulletins B787–81205–SB250277–00 RB, Issue 001, dated February 15, 2023, and B787–81205–SB250278–00 RB, Issue 001, dated February 15, 2023: Except as specified by paragraph (h) of this AD: At the applicable times specified in the “Compliance” paragraph of Boeing Alert Requirements Bulletins B787–81205–SB250277–00 RB, Issue 001, dated February 15, 2023, or B787–81205–SB250278–00 RB, Issue 001, dated February 15, 2023, as applicable, do all applicable actions identified in, and in accordance with, the Accomplishment Instructions of Boeing Alert Requirements Bulletin B787–81205–SB250277–00 RB, Issue 001, dated February 15, 2023, or B787–81205–SB250278–00 RB, Issue 001, dated February 15, 2023, as applicable.

(h) Exceptions to Service Information Specifications

(1) Where the Compliance Time columns of the tables in the “Compliance” paragraph of Boeing Alert Requirements Bulletin B787–81205–SB250277–00 RB, Issue 001, dated February 15, 2023, use the phrase “the Issue 001 date of the Requirements Bulletin B787–

81205–SB250277–00 RB,” this AD requires using “the effective date of this AD.”

(2) Where the Compliance Time columns of the tables in the “Compliance” paragraph of Boeing Alert Requirements Bulletin B787–81205–SB250278–00 RB, Issue 001, dated February 15, 2023, use the phrase “the Issue 001 date of the Requirements Bulletin B787–81205–SB250278–00 RB” this AD requires using “the effective date of this AD.”

(3) Where Boeing Alert Requirements Bulletin B787–81205–SB250277–00 RB, Issue 001, dated February 15, 2023, and Boeing Alert Requirements Bulletin B787–81205–SB250278–00 RB, Issue 001, dated February 15, 2023, specify that the corrective actions for Conditions 2, 2.2, 2.2.2, and 3 must be done before further flight, this AD requires that the corrective actions for those conditions must be done within 24 months after the effective date of this AD.

(i) Parts Installation Prohibition

As of the effective date of this AD, no person may install, on any airplane, a PSU oxygen panel assembly part number 4572105–XXX–0D0, or 4572175–XXX–0D0, or 4572185–XXX–0D0, where the “XXX” in the affected PSU oxygen panel assembly part numbers is any combination of numerals, that was manufactured in May 2020 or before, and does not have a supplier service bulletin modification label marked with an applicable supplier service bulletin number and date.

(j) Alternative Methods of Compliance (AMOCs)

(1) The Manager, AIR–520, Continued Operational Safety Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or responsible Flight Standards Office, as appropriate. If sending information directly to the manager of the certification office, send it to the attention of the person identified in paragraph (k) of this AD. Information may be emailed to: 9-ANM-Seattle-ACO-AMOC-Requests@faa.gov.

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the responsible Flight Standards Office.

(3) An AMOC that provides an acceptable level of safety may be used for any repair, modification, or alteration required by this AD if it is approved by The Boeing Company Organization Designation Authorization (ODA) that has been authorized by the Manager, AIR–520, Continued Operational Safety Branch, FAA, to make those findings. To be approved, the repair method, modification deviation, or alteration deviation must meet the certification basis of the airplane, and the approval must specifically refer to this AD.

(k) Related Information

For more information about this AD, contact Samuel Nalbandian, Aviation Safety Engineer, FAA, 2200 South 216th St., Des Moines, WA 98198; phone: 206–231–3993; email: Samuel.K.Nalbandian@faa.gov.

(l) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(i) Boeing Alert Requirements Bulletin B787–81205–SB250277–00 RB, Issue 001, dated February 15, 2023.

(ii) Boeing Alert Requirements Bulletin B787–81205–SB250278–00 RB, Issue 001, dated February 15, 2023.

(3) For service information identified in this AD, contact Boeing Commercial Airplanes, Attention: Contractual & Data Services (C&DS), 2600 Westminister Blvd., MC 110–SK57, Seal Beach, CA 90740–5600; telephone 562–797–1717; website myboeingfleet.com.

(4) You may view this service information at the FAA, Airworthiness Products Section, Operational Safety Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206–231–3195.

(5) You may view this material at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, visit www.archives.gov/federal-register/cfr/ibr-locationsoremailfr.inspection@nara.gov.

Issued on December 18, 2023.

Victor Wicklund,

Deputy Director, Compliance & Airworthiness Division, Aircraft Certification Service.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71**

[Docket No. FAA–2023–1758; Airspace Docket No. 23–AWP–44]

RIN 2120–AA66

Modification of Class E Airspace; Mammoth Lakes Airport, Mammoth Lakes, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify the Class E airspace designated as a surface area, modify the Class E airspace extending upward from 700 feet above the surface, and remove the Class E airspace extending upward from 1,200 feet above the surface at Mammoth Lakes Airport, Mammoth Lakes, CA. Additionally, this action proposes administrative amendments to update the airport's existing Class E

airspace legal descriptions. These actions would support the safety and management of instrument flight rules (IFR) operations at the airport.

DATES: Comments must be received on or before February 5, 2024.

ADDRESSES: Send comments identified by FAA Docket No. FAA-2023-1758 and Airspace Docket No. 23-AWP-44 using any of the following methods:

* *Federal eRulemaking Portal:* Go to www.regulations.gov and follow the online instructions for sending your comments electronically.

* *Mail:* Send comments to Docket Operations, M-30; U.S. Department of Transportation, 1200 New Jersey Avenue SE, Room W12-140, West Building Ground Floor, Washington, DC 20590-0001.

* *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12-140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

* *Fax:* Fax comments to Docket Operations at (202) 493-2251.

Docket: Background documents or comments received may be read at www.regulations.gov at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12-140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FAA Order JO 7400.11H, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783.

FOR FURTHER INFORMATION CONTACT: Jeffrey Drasin, Federal Aviation Administration, Western Service Center, Operations Support Group, 2200 S 216th Street, Des Moines, WA 98198; telephone (206) 231-2248.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A,

Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify Class E airspace to support IFR operations at Mammoth Lakes Airport, Mammoth Lakes, CA.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy.

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA's web page at www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Operations office

(see **ADDRESSES** section for address, phone number, and hours of operations). An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 2200 S 216th Street, Des Moines, WA 98198.

Incorporation by Reference

Class E2 and E5 airspace designations are published in paragraph 6002 and 6005 respectively, of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11H, dated August 11, 2023, and effective September 15, 2023. These updates would be published in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11H lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 that would modify the Class E airspace designated as a surface area, modify the Class E airspace extending upward from 700 feet above the surface, and remove Class E airspace extending upward from 1,200 feet above the surface at Mammoth Lakes Airport, Mammoth Lakes, CA.

The Class E surface area extension east of the airport centered on the 099° bearing should be recentered on the airport's 096° bearing instead. Additionally, the width should be reduced from 1.8 miles to 1 mile either side of the bearing, and the extension length should be reduced from 5.6 miles to 4.6 miles east of the airport. This would better contain arriving IFR operations between the surface and 1,000 feet above the surface while executing the Area Navigation (RNAV) (Global Positioning System [GPS]) Runway (RWY) 27 approach.

The existing Class E airspace extending from 700 feet above the surface should be extended eastward to include that airspace within 2.6 miles either side of the airport's 091° bearing extending from the 6.6-mile radius to 13.1 miles east of the airport. This would contain arriving IFR operations below 1,500 feet above the surface while executing the RNAV (GPS) RWY 27 approach.

The existing Class E airspace extending upward from 1,200 feet above

the surface should be removed, as the area is already within the Coaldale Class E en route domestic airspace area.

Finally, the FAA proposes administrative modifications to the airport's legal descriptions. The text header of both legal descriptions should be changed to match the new airport name, Mammoth Yosemite Airport. The geographic coordinates located in the text header of both legal descriptions should be updated to match the FAA's database. The text of the Class E airspace extending upward from the surface should be updated to show the new airport name and replace the outdated use of the phrases "Notice to Airmen" and "Airport/Facility Directory." These phrases should be amended to read "Notice to Air Missions" and "Chart Supplement," respectively, to align with the FAA's current nomenclature. The text of the Class E airspace extending upward from 700 feet above the surface should be updated to show the new airport name.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, *Environmental Impacts: Policies and Procedures*, prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11H, *Airspace Designations and Reporting Points*, dated August 11, 2023, and effective September 15, 2023, is amended as follows:

Paragraph 6002 Class E Airspace Areas Designated as Surface Areas.

* * * * *

AWP CA E2 Mammoth Lakes, CA [Amended]

Mammoth Yosemite Airport, CA
(Lat. 37°37'27" N, long. 118°50'20" W)

That airspace within a 4.1-mile radius of the airport and within 1 mile either side of the 096° bearing from the airport, extending from the 4.1-mile radius to 4.6 miles east of the airport. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to Air Missions. The effective date and time will thereafter be continuously published in the Chart Supplement.

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AWP CA E5 Mammoth Lakes, CA [Amended]

Mammoth Yosemite Airport, CA
(Lat. 37°37'27" N, long. 118°50'20" W)

That airspace extending upward from 700 feet above the surface within a 6.6-mile radius of the airport and within 2.6 miles either side of the airport's 091° bearing, extending from the 6.6-mile radius to 13.1 miles east.

* * * * *

Issued in Des Moines, Washington, on December 18, 2023.

B.G. Chew,

Group Manager, Operations Support Group, Western Service Center.

RIN 2120–AA66

Establishment of Class D Airspace and Modification of Class E Airspace; McClellan Airfield, Sacramento, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to establish Class D airspace extending upward from the surface up to and including 2,600 feet at McClellan Airfield, Sacramento, CA. Additionally, this action proposes administrative modifications to update the airport's Class E airspace legal description. These actions would support the safety and management of instrument flight rules (IFR) and visual flight rules (VFR) operations at the airport.

DATES: Comments must be received on or before February 5, 2024.

ADDRESSES: Send comments identified by FAA Docket No. FAA–2023–1660 and Airspace Docket No. 23–AWP–37 using any of the following methods:
