Abstract: This request is for a new OMB approval to collect the Annual Performance Report (APR) data from Charter School Programs (CSP) Credit Enhancement for Charter School Facilities Program (CE) grantees.

of the Elementary and Secondary Education Act (ESEA) of 1965, as amended by the No Child Left Behind (NCLB) Act of 2001. For fiscal year 2017 and thereafter, ESEA has been amended by the Every Student Succeeds Act (ESSA), (20USC 7221-7221i), which reserves funds to improve education by supporting innovation in public education and to: (2) provide financial assistance for the planning, program design, and initial implementation of charter schools; (3) increase the number of high-quality charter schools available to students across the United States; (4) evaluate the impact of charter schools on student achievement, families, and communities, and share best practices between charter schools and other public schools; (5) encourage States to provide support to charter schools for facilities financing in an amount more nearly commensurate to the amount States typically provide for traditional public schools; (6) expand opportunities for children with disabilities, English learners, and other traditionally underserved students to attend charter schools and meet the challenging State academic standards; (7) support efforts to strengthen the charter school authorizing process to improve performance management, including transparency, oversight and monitoring (including financial audits), and evaluation of such schools; and (8) support quality, accountability, and transparency in the operational performance of all authorized public chartering agencies, including State educational agencies, local educational agencies, and other authorizing entities.

Specific to the CE program, grant funds are awarded to demonstrate innovative methods of helping charter schools to address the costs of acquiring, constructing, and renovating facilities by enhancing the availability of loans or bond financing and used by grantees to assist one or more charter schools to access private-sector capital to accomplish one or more of the following objectives: (1) The acquisition (by purchase, lease, donation, or otherwise) of an interest (including an interest held by a third party for the benefit of a charter schools) in improved or unimproved real property that is necessary to commence or continue the operation of a charter schools; (2) The construction of new facilities, or the renovation, repair, or alteration of existing facilities, necessary to commence or continue the operation of a charter school; (3) The predevelopment costs required to assess sites for purposes of paragraph (1) or (2) and that are necessary to commence or

continue the operation of a charter school.

The U.S. Department of Education (ED) is requesting authorization to collect data from CSP grantees within the CE program with new APR tool. The former APR data collection package for CE grantees was discontinued in March 2023. The CSP made revisions to the questionnaire aimed at reducing grantee burden (*e.g.*, eliminating questions) and collecting more accurate and useful program data (*e.g.*, identifying joint transactions with other CE grantees). To further these aims, CSP is planning to collect the APR data through a web-based system used to collect APR data from other CSP program grantees.
