OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Reallocation of Unused Fiscal Year 2024 WTO Tariff-Rate Quota Volume for Raw Cane Sugar

AGENCY: Office of the United States Trade Representative.

ACTION: Notice.

SUMMARY: The Office of the United States Trade Representative (USTR) is providing notice of a reallocation of the fiscal year (FY) 2024 in-quota quantity of the World Trade Organization (WTO) tariff-rate quota (TRQ) for imported raw cane sugar.

DATES: This notice is applicable on December 26, 2023.

FOR FURTHER INFORMATION CONTACT: Erin Nicholson, Office of Agricultural Affairs, at 202-395-9419 or erin.h.nicholson@ustr.eop.gov.

SUPPLEMENTARY INFORMATION: Pursuant to Additional U.S. Note 5 to Chapter 17 of the Harmonized Tariff Schedule of the United States (HTSUS), the United States maintains WTO TRQs for imports of raw cane and refined sugar. Section 404(d)(3) of the Uruguay Round Agreements Act (19 U.S.C. 3601(d)(3)) authorizes the President to allocate the in-quota quantity of a TRQ for any agricultural product among supplying countries or customs areas. The President delegated this authority to the U.S. Trade Representative under Presidential Proclamation 6763 (60 FR 1007).

On July 5, 2023, the U.S. Department of Agriculture established the FY2024 TRQ for imported raw cane sugar at the minimum quantity to which the United States is committed pursuant to the WTO Uruguay Round Agreements (1,117,195 metric tons raw value (MTRV) conversion factor: 1 metric ton = 1.10231125 short tons). On July 19, 2023, USTR provided notice of country-by-country allocations of the FY2024 in-quota quantity of the WTO TRQ for imported raw cane sugar. See 87 FR 43593. On November 30, 2023, based on consultation with quota holders, USTR

reallocated 223,740 MTRV of the original TRQ quantity from those countries that had stated they did not plan to fill their FY2024 allocated raw cane sugar quantities. See 88 FR 83596. Due to an inadvertent omission, Fiji was not consulted and therefore was not included as a country receiving a reallocated amount. Based on further consultation with certain quota holders, USTR has determined that an additional 3,217 MTRV is available for reallocation from those countries that have stated they do not plan to fill their FY2024 allocated raw cane sugar quantities. USTR is allocating the 3,217 MTRV to Fiji, which is the amount that Fiji would have received if included in the reallocation of November 30, 2023.

The allocations of the raw cane sugar WTO TRQ to countries that are net importers of sugar are conditioned on receipt of the appropriate verifications of origin. Certificates for quota eligibility must accompany imports from any country for which an allocation has been provided.

Douglas McKalip,

Chief Agricultural Negotiator, Office of the United States Trade Representative.

Title: Strategic Innovation for Revenue Collection (SIRC) Program Grant Application.

OMB Control #: 2125-0676.

Background: In adherence with 5 CFR 1320.13, this is a request for approval for an emergency clearance for processing of information related to a new collection of information for the SIRC Program grant application submission and quarterly reporting requirements for FY 2023-2024 program of projects awards. The collection of information will support implementation of title III—Research, Technology, and Education, sec. 13001. Strategic Innovation for Revenue Collection (a) and (b) of the Infrastructure Investment and Jobs Act (Public Law No: 117-58 or also referred to as the Bipartisan Infrastructure Law-BIL (see Exhibit A page 12). The Office of the Secretary of Transportation (OST) and the Federal Highway Administration (FHWA) has coordinated on the development of public information to solicit responses to a Notice of Funding Opportunity (NOFO) for the SIRC Program. Awarded funds to eligible applicants will test the feasibility of a road usage fee and other user-based alternative revenue mechanisms (referred to in this section as “user based alternative revenue mechanisms”) to help maintain the

long-term solvency of the Highway Trust Fund.

- The information will be received by the FHWA to fulfill the grant application submittal requirements and agreements prescribed in the NOFO.

- The collection of information will include grant application forms and narratives, grant agreements, and project management quarterly reporting.

- The purpose of the collection is to receive information relevant to evaluating applications to the SIRC grant program, per the NOFO, and reporting requirements agreed to by recipients of the Grants.

- The obligation to respond to the collection of information is voluntary and is required to obtain or retain a benefit.

The Strategic Innovation for Revenue Collection (SIRC) Program seeks to fund pilot projects that test the implementation of user-based alternative revenue mechanisms that utilize a road user fee structure for eligible entities to test the feasibility of the program objectives outlined in section 133001(b)(3), as prescribed in Exhibit A of this document. Grant awards test innovative ways to replace or supplement the Federal gas tax to maintain the long-term solvency of the Highway Trust Fund. The collection of information is necessary to receive applications for grant funds, evaluate the effectiveness of projects that have been awarded grant funds, and monitor project financial conditions and project progress pursuant to section 133001(b)(3). FY 2023—FY 2024 is the first year of implementation for the SIRC Program. FHWA implemented a similar predecessor program, the Surface Transportation System Funding Alternatives (STSFA) program authorized by section 6020 of the Fixing America's Surface Transportation (FAST) Act, Public Law 114-94, FY 2016-2021, which was repealed with the passage of BIL. Information about awards funded under the STSFA program is available at: <https://ops.fhwa.dot.gov/stsfa/index.htm>.

FHWA requests information from applicants in the form an electronic application, which will represent 100% of the submissions. The application will assist in soliciting proposals for funding from eligible applicants for the five-year grant program, to monitor the grant program recipients, project progress, assess project outcomes and permit evaluation. The reporting requirements are submitted by recipients and will be completed during the application stage, grant agreement, and the project management stages.
