SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, the Administration for Community Living (ACL) has submitted the following proposed collection of information to OMB for review and clearance. The Older American’s Act requires that ACL evaluate demonstration projects intended to be brought to scale. It also requires prioritization of projects that

address the needs of underserved populations and promote partnerships between community-based service providers.

To fulfill the evaluation requirements and allow for optimal federal and state-level management of ACL’s Alzheimer’s Disease Programs Initiative (ADPI), specific information must be collected from grantees. The current reporting tool is set to expire December 31, 2023. The ADPI Project Officer has reviewed the current data collection procedures to ensure the acceptability of these items as appropriate while minimizing burden for grantees. The result of this process is the proposed modifications to the existing data collection tool. ACL is aware that different grantees have different data collection capabilities. It is understood that, following the approval of the modified data collection tool, ACL will work with its grantees to offer regular training to ensure minimal burden.

This information collection collects demographic data from people receiving programs and services funded by HHS. ACL will adhere to best practices for collection of all demographic information when this information is collected for the programs listed in accordance with OMB guidance.

This includes, but is not limited to, guidance specific to the collection of sexual orientation and gender identity

(SOGI) items that align with Executive Order 13985 on Advancing Racial Equity and Support for Underserved Communities Through the Federal Government, Executive Order 14075 on Advancing Equality for Lesbian, Gay, Bisexual, Transgender, Queer, and Intersex Individuals, and Executive Order 13988 on Preventing and Combating Discrimination on the Basis

of Gender Identity and Sexual Orientation. Understanding these disparities can and should lead to improved service delivery for ACL’s programs and populations served.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3506) Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. “Collection of information” includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. The PRA requires Federal agencies provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, ACL is publishing a notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, ACL invites comments on our burden estimates or any other aspect of this collection of information, including:

(1) whether the proposed collection of information is necessary for the proper performance of ACL’s functions, including whether the information will have practical utility;

(2) the accuracy of ACL’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used to determine burden estimates;

(3) ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) ways to minimize the burden of the collection of information on respondents, including using automated collection techniques when appropriate, and other forms of information technology.

The Assistive Technology Act of 1998 (AT Act) (29 U.S.C. 3003) authorizes grants to public agencies in the 50 states and the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Marianas (states and outlying areas). With these funds, states and outlying areas operate “Statewide AT Programs” that conduct activities to increase access to and acquisition of assistive technology (AT) for individuals with disabilities and older Americans. As a condition of receiving a grant to support their Statewide AT Programs, the states and outlying areas must provide to ACL an application and annual progress reports on their activities.

Applications: The application required of states and outlying areas is a three-year State Plan for Assistive Technology (State Plan for AT or State Plan) (OMB No. 0985–0048). The content of the State Plan for AT is based on the requirements in 29 U.S.C. 3003(d).

Annual Reports: In addition to submitting a State Plan, every three years, states and outlying areas are required to submit annual progress reports on their activities. The data required in that progress report is specified at 29 U.S.C. 3003(f).
