Current actions: On September 11, 2023, the Board published a notice in the **Federal Register** (88 FR 62364) requesting public comment for 60 days on the extension, with revision, of the FR 2590. The Board proposed to revise the FR 2590 reporting form to clarify that an FBO that meets the large exposure standards on a consolidated basis established by its home-country supervisor is not required to provide additional documentation as part of its FR 2590 submission. The Board also proposed to clarify that a respondent should use tier 1 capital data and total consolidated assets data that is concurrent with its FR 2590 submission when calculating and reporting compliance with the SCCL rule. The Board also proposed to clarify that respondents should retain manually signed and attested copies of the cover page of the FR 2590 form and of the data submitted for three years, in accordance with similar requirements for other regulatory reports. The Board also proposed to clarify that the order of counterparties should be the same across Schedules G–1 through G–4, Schedules M–1 through M–2, and the Summary of Net Credit Exposures. Finally, the Board proposed to revise Schedule M–1 by adding an additional table for firms calculating derivative transaction exposures using the standardized approach for counterparty credit risk to report collateral received in connection with those derivative transactions. The comment period for this notice expired on November 13, 2023. The Board did not receive any comments relevant to the revision of this collection or to the PRA. The revisions will be implemented as proposed.

The GAP FAC serves as an advisory body to GSA's Administrator on how GSA can use its acquisition tools and authorities to target the highest priority Federal acquisition challenges. To accomplish its work, the GAP FAC established three subcommittees: Policy and Practices, Industry Partnerships, and Acquisition Workforce.

The Policy and Practice Subcommittee will focus on procurement policy that supports robust climate and sustainability action. This

group will focus on regulatory, policy, and process changes required to embed climate and sustainability considerations in Federal acquisitions.

The Industry Partnerships Subcommittee will investigate ways to expand a climate focus on Federal acquisition while reinforcing inclusion, domestic sourcing, small business opportunity, and innovation from an Industry standpoint. This includes identifying and addressing gaps in sustainable attributes standards for the goods and services that the Federal government buys.

The Acquisition Workforce Subcommittee will explore ways to advance a culture of sustainability and climate action within the acquisition workforce. This includes equipping and enabling the acquisition workforce to effectively use sustainability as a critical element in the evaluation and source selection process.

The frequency of meetings for the three subcommittees is every four weeks to give committee members additional time to reflect on the information being provided by guest speakers.
