SUPPLEMENTARY INFORMATION:
Title: FERC-725A(1C) (Mandatory Reliability Standards for Bulk-Power System: Reliability Standard TOP-001-4).

OMB Control No.: 1902-0298.
Type of Request: Extension to the information collection, with no changes to the reporting and recordkeeping requirements.

Abstract: In a petition dated March 6, 2017, the North American Electric Reliability Corporation (“NERC”) requested Commission approval for proposed Reliability Standard TOP-001-4 (Transmission Operations). NERC stated that the proposed Reliability Standard addresses the Commission directives in Order No. 817 related to: (i) transmission operator monitoring of non-bulk electric system (“BES”) facilities; (ii) redundancy and diverse routing of transmission operator, balancing authority, and reliability

coordinator data exchange capabilities; and (iii) testing of alternative or less frequently used data exchange capabilities”. In an order on April 17, 2017,¹ the implementation of Reliability Standard TOP-001-4 and the retirement of Reliability Standard TOP-001-3 was approved. Reliability Standard TOP-001-5 is the currently effective version of the standard as of April 1, 2021, at the same time Reliability Standard TOP-001-4 was retired. The Commission now seeks to extend the information collection activities associated with Reliability Standard TOP-001-5.

It is also noted that we are updating applicable entities to accurately reflect for this renewal it applies to transmission operators (TOP) and balancing authorities (BA), in the previous renewal the incorrect number of TOPs was used and we are changing it from 321 to 165.

Type of Respondents: Transmission Operators (TOP) and Balancing Authorities (BA).

*Estimate of Annual Burden:*² The Commission estimates the annual public reporting burden and cost as follows.

Information collection requirements	Number of respondents & type of entity ³	Annual number of responses per respondent	Total number of responses	Average burden hours & cost per response (\$)	Total annual burden hours & total annual cost (\$)
	(1)	(2)	(1) * (2) = (3)	(4) ⁴	(3) * (4) = (5)
Reporting (R10, R20, & R21), ongoing	165 (TOP)	1	165	3 hrs.; \$211.65	495 hrs.; \$34,922.25.
Recordkeeping, ongoing	165 (TOP)	1	165	2 hrs.; \$79.12	330 hrs.; \$13,054.80.
TOP Sub-Totals	5 hrs.; \$290.77	825 hrs.; \$47,977.05.
Reporting (R23 & R24), ongoing	98 (BA)	1	98	2 hrs.; \$141.10	196 hrs.; \$13,827.80.
Recordkeeping, ongoing	98 (BA)	1	98	4 hrs.; \$158.24	392 hrs.; \$15,507.52.
BA Sub-Totals	6hrs.; \$299.34	588 hrs.; \$29,335.32.
FERC-725A(1C) ongoing total	1,413 hrs.; \$773,312.37

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the

validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.
