

switched to IP-based networks and from copper to wireless and fiber infrastructure, have affected the quality and utility of TTY technology, prompting discussions on transitioning to an alternative advanced communications technology for text communications. Accordingly, on December 16, 2016, the Commission released Transition from TTY to Real-Time Text Technology, Report and Order, document FCC 16–169, 82 FR 7699, January 23, 2017, amending its rules that govern the obligations of wireless service providers and manufacturers to support TTY technology to permit such providers and manufacturers to provide support for real-time text (RTT) over wireless IP-based networks to facilitate an effective and seamless transition to RTT in lieu of continuing to support TTY technology.

In document FCC 16–169, the Commission adopted measures requiring the following:

(a) Each wireless provider and manufacturer that voluntarily transitions from TTY technology to RTT over wireless IP-based networks and services is encouraged to develop consumer and education efforts that include (1) the development and dissemination of educational materials that contain information pertinent to the nature, purpose, and timelines of the RTT transition; (2) internet postings, in an accessible format, of information about the TTY to RTT transition on the websites of covered entities; (3) the creation of a telephone hotline and an online interactive and accessible service that can answer consumer questions about RTT; and (4) appropriate training of staff to effectively respond to consumer questions. All consumer outreach and education should be provided in accessible formats including, but not limited to, large print, Braille, videos in American Sign Language and that are captioned and video described, emails to consumers who have opted to receive notices in this manner, and printed materials. Service providers and manufacturers are also encouraged to coordinate with consumer, public safety, and industry stakeholders to develop and distribute education and outreach materials. The information will inform consumers of alternative accessible technology available to replace TTY technology that may no longer be available to the consumer through their provider or on their device.

(b) Each wireless provider that requested or will request and receive a waiver of the requirement to support TTY technology over wireless IP-based

networks and services must apprise its customers, through effective and accessible channels of communication, that (1) until TTY is sunset, TTY technology will not be supported for calls to 911 services over IP-based wireless services, and (2) there are alternative PSTN-based and IP-based accessibility solutions for people with disabilities to reach 911 services. These notices must be developed in coordination with public safety answering points (PSAPs) and national consumer organizations, and include a listing of text-based alternatives to 911, including, but not limited to, TTY capability over the PSTN, various forms of PSTN-based and IP-based TRS, and text-to-911 (where available). The notices will inform consumers on the loss of the use of TTY for completing 911 calls over the provider's network and alert them to alternatives service for which TTY may be used.

(c) Once every six months, each wireless provider that requests and receives a waiver of the requirement to support TTY technology must file a report with the Commission and inform its customers regarding its progress toward and the status of the availability of new IP-based accessibility solutions. Such reports must include (1) information on the interoperability of the provider's selected accessibility solution with the technologies deployed or to be deployed by other carriers and service providers, (2) the backward compatibility of such solution with TTYs, (3) a showing of the provider's efforts to ensure delivery of 911 calls to the appropriate PSAP, (4) a description of any obstacles incurred towards achieving interoperability and steps taken to overcome such obstacles, and (5) an estimated timetable for the deployment of accessibility solutions. The information will inform consumers of the progress towards the availability of alternative accessible means to replace TTY, and the Commission will be able to evaluate the reports to determine if any changes to the waivers are warranted or of any impediments to progress that it may be in a position to resolve.

Federal Communications Commission.

Katura Jackson,

Federal Register Liaison Officer.

GOVERNMENT ACCOUNTABILITY OFFICE

Request for Medicaid and CHIP Payment and Access Commission (MACPAC) Nominations

AGENCY: Government Accountability Office.

ACTION: Request for letters of nomination and resumes.

SUMMARY: The Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA) established MACPAC to review Medicaid and CHIP access and payment policies and to advise Congress on issues affecting Medicaid and CHIP. CHIPRA gave the Comptroller General of the United States responsibility for appointing MACPAC's members. The U.S. Government Accountability Office (GAO) is now accepting nominations for MACPAC appointments that will be effective May 2024. Nominations should be sent to the email address listed below.

Acknowledgement of receipt will be provided within a week of submission.

DATES: Letters of nomination and resumes should be submitted no later than January 25, 2024, to ensure adequate opportunity for review and consideration of nominees prior to appointment.

ADDRESSES: Submit letters of nomination and resumes to MACPACappointments@gao.gov.

FOR FURTHER INFORMATION CONTACT: Corissa Kiyon-Fukumoto at (206) 287–4808 or KiyonFukumotoC@gao.gov if you do not receive an acknowledgment or need additional information. For general information, contact GAO's Office of Public Affairs, (202) 512–4800. *Authority:* 42 U.S.C. 1396.

Gene L. Dodaro,

Comptroller General of the United States.
