## II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “Solicitation of Non-Power Operator Licensing Examination Data.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on September 7, 2023, 88 FR 61627.

1. *The title of the information collection:* Solicitation of Non-Power Operator Licensing Examination Data.
2. *OMB approval number:* 3150–0235.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* Not applicable.
5. *How often the collection is required or requested:* Annually.
6. *Who will be required or asked to respond:* All holders of operating licenses for non-power reactors under the provision of part 50 of title 10 of the *Code of Federal Regulations*, “Domestic Licensing of Production and Utilization Facilities,” except those that have permanently ceased operations and have certified that fuel has been permanently removed from the reactor vessel.
7. *The estimated number of annual responses:* 31.
8. *The estimated number of annual respondents:* 31.
9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 31.

10. *Abstract:* The NRC annually requests all non-power reactor licensees and applicants for an operating license to voluntarily send to the NRC: (1) their projected number of candidates for initial operator licensing examinations and (2) the estimated dates of the examinations. This information is used to plan budgets and resources in regard to operator examination scheduling in order to meet the needs of the non-power nuclear community.

Dated: December 28, 2023.
