

(i) has the potential to injure a marine mammal or marine mammal stock in the wild (Level A harassment); or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering (Level B harassment).

On January 19, 2021, we issued a final rule with regulations to govern the unintentional taking of marine mammals incidental to geophysical survey activities conducted by oil and gas industry operators, and those persons authorized to conduct activities on their behalf (collectively “industry operators”), in U.S. waters of the GOM over the course of 5 years (86 FR 5322, January 19, 2021). The rule was based on our findings that the total taking from the specified activities over the 5-year period will have a negligible impact on the affected species or stock(s) of marine mammals and will not have an unmitigable adverse impact on the availability of those species or stocks for subsistence uses. The rule became effective on April 19, 2021.

Our regulations at 50 CFR 217.180 *et seq.* allow for the issuance of LOAs to industry operators for the incidental take of marine mammals during geophysical survey activities and prescribe the permissible methods of taking and other means of effecting the least practicable adverse impact on marine mammal species or stocks and their habitat (often referred to as mitigation), as well as requirements pertaining to the monitoring and reporting of such taking. Under 50 CFR 217.186(e), issuance of an LOA shall be based on a determination that the level of taking will be consistent with the findings made for the total taking allowable under these regulations and a determination that the amount of take authorized under the LOA is of no more than small numbers.

NMFS issued an LOA to LLOG on January 20, 2022, for the take of marine mammals incidental to the following vertical seismic profile (VSP) survey types: Zero Offset, Offset, Walk Away, Salt Proximity and/or Check Shots after reaching total depth of any of the proposed wells operated by LLOG within the Keathley Canyon Area, effective March 1, 2022 through December 31, 2022. Please see the **Federal Register** notice of issuance (87 FR 3084, January 20, 2022) for additional detail regarding the LOA and the survey activity.

LLOG subsequently requested modification of the December 31, 2022, expiration date to December 31, 2023,

due to survey delays and NMFS modified the LOA accordingly (87 FR 41670, July 13, 2022). More recently, LLOG informed NMFS that the survey would be further delayed, and requested a second modification to the expiration date of the LOA (from December 31, 2023, to December 31, 2026) to accommodate the delays. There are no other changes to LLOG’s planned activity. Since issuance of the LOA, no survey work has occurred.

Authorization

NMFS has changed the expiration date of the LOA from December 31, 2023, to December 31, 2026. There are no other changes to the LOA as described in the January 20, 2022, **Federal Register** notice of issuance (87 FR 3084): the specified survey activity; estimated take by incidental harassment; and small numbers analysis and determination remain unchanged and are incorporated here by reference.

Dated: December 27, 2023.

Kimberly Damon-Randall,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Socioeconomics of Coral Reef Conservation

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. This notice pertains to a revision and extension of the approved collection of information for Socioeconomics of Coral Reef Conservation. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before March 5, 2024.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov. Please reference OMB Control Number 0648–0646 in the subject line of your comments. Written comments NOAA receives are considered part of the public record, and the entirety of the comment, including the name of the commenter, email address, attachments, and other supporting materials, will be publicly accessible. Sensitive personally identifiable information, such as account numbers and Social Security numbers or Confidential Business Information, should not be included with the comment.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Mary Allen, NOAA Office for Coastal Management, Coral Reef Conservation Program, 1305 East-West Highway, Silver Spring, MD 20910, Telephone (240) 528–8151 or Mary.Allen@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for revision and extension to an approved collection of information, OMB Control Number 0648–0646, under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, and implementing regulations at 5 CFR part 1320. This previously-approved information collection assists NOAA in the administration of the National Coral Reef Monitoring Program (NCRMP), which was established by the NOAA Coral Reef Conservation Program (CRCP) under the authority of the Coral Reef Conservation Act of 2000, 16 U.S.C. 6401 *et seq.* This act authorizes CRCP to, among other things, conserve and restore the condition of United States coral reef ecosystems and enhance public awareness, understanding, and appreciation of coral reefs and coral reef ecosystems and their ecological and socioeconomic value. In accordance with its mission goals, NOAA developed a survey to track relevant information regarding each jurisdiction’s population, social and economic structure, the benefits of coral reefs and related habitats, the impacts of society on coral reefs, and the impacts of coral management on communities. The survey is repeated in each jurisdiction every five to seven years in order to provide longitudinal

data and information for managers to effectively conserve coral reefs for current and future generations.

The purpose of this information collection is to obtain human dimensions information from residents in the seven United States (U.S.) jurisdictions containing coral reefs: Florida, U.S. Virgin Islands (USVI), Puerto Rico, Hawai'i, American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands (CNMI). Specifically, NOAA is seeking information on the behaviors and activities related to coral reefs, as well as information on perceptions of coral reef conditions and attitudes toward specific reef conservation activities. Each survey has a core set of questions that are asked across all jurisdictions to allow for information to be tracked over time and across jurisdictions. To account for geographical, cultural and linguistic differences between jurisdictions, the survey questions include items that are specific to the local context and developed based on jurisdictional partner feedback.

We intend to use the information collected through this instrument for research purposes, as well as for measuring and improving the results of our reef protection programs. Because many of our efforts to protect reefs rely on education and changing attitudes toward reef protection, the information collected will allow CRCP to ensure that programs are designed appropriately at the start, future program evaluation efforts are as successful as possible, and outreach efforts are targeting the intended recipients with useful information.

Pursuant to a request from the Office of Management and Budget (OMB), this collection of information was restructured in 2021 as a hybrid-generic collection. That structure is maintained herein.

II. Method of Collection

Information will be collected using the most efficient and effective methodology that is feasible in the individual jurisdiction. Dependent upon the jurisdiction, data will be collected via in-person or mail recruitment, in-person interviews, and/or push-to-web online survey platforms. For the three years covered by this clearance, data collection will target the USVI, Florida, and Hawai'i and will be collected as such: in-person interviews with an online option in the USVI and via mail push-to-web in Florida and Hawai'i.

III. Data

OMB Control Number: 0648-0646.
Form Number(s): None.

Type of Review: Regular submission. Revision and extension to a currently approved information collection.

Affected Public: Individuals or households.

Estimated Number of Respondents: 9,840.

Estimated Time per Response: 20 minutes per response.

Estimated Total Annual Burden Hours: 469 hours.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

Respondent's Obligation: Voluntary.

Legal Authority: Coral Reef Conservation Act of 2000, 16 U.S.C. 6401 *et seq.*

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this information collection request. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. If you would rather make an anonymous comment, please submit comments through [regulations.gov](https://www.regulations.gov).

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510-JS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XD557]

Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Marine Site Characterization Surveys Off New York, New Jersey, Delaware, and Maryland

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; proposed incidental harassment authorization; request for comments on proposed authorization and possible renewal.

SUMMARY: NMFS has received a request from Atlantic Shores Offshore Wind, LLC (Atlantic Shores) for authorization to take marine mammals incidental to marine site characterization surveys in waters off of New York, New Jersey, Delaware, and Maryland, including in the Bureau of Ocean Energy Management (BOEM) Commercial Lease of Submerged Lands for Renewable Energy Development on the Outer Continental Shelf (OCS) Lease Areas OCS-A 0499, OCS-A 0541, OCS-A 0549, and associated export cable corridor (ECC) areas. Pursuant to the Marine Mammal Protection Act (MMPA), NMFS is requesting comments on its proposal to issue an incidental harassment authorization (IHA) to incidentally take marine mammals during the specified activities. NMFS is also requesting comments on a possible one-time, 1-year renewal that could be issued under certain circumstances and if all requirements are met, as described in Request for Public Comments at the end of this notice. NMFS will consider public comments prior to making any final decision on the issuance of the requested MMPA authorization and agency responses will be summarized in the final notice of our decision.

DATES: Comments and information must be received no later than February 5, 2024.

ADDRESSES: Comments should be addressed to Jolie Harrison, Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service and should be submitted via email to ITP.clevenstine@noaa.gov. Electronic copies of the application and supporting documents, as well as a list of the references cited
