BILLING CODE 6700–01–P

FEDERAL LABOR RELATIONS AUTHORITY

Privacy Act of 1974; System of Records

AGENCY: Federal Labor Relations Authority.

ACTION: Notice of a new system of records.

SUMMARY: In accordance with the Privacy Act of 1974, the Federal Labor Relations Authority (FLRA) is issuing public notice of an intent to introduce a new system of records entitled, “Privacy Act Requests and Appeals.” This notice publishes details of the new system as set forth below.

DATES: This notice action shall be applicable immediately, which will become effective February 7, 2024.

Comments will be accepted on or before: February 7, 2024.

ADDRESSES: You may send comments, which must include the caption “SORN

Notice (Privacy Act),” by one of the following methods:

Email: SolMail@flra.gov. Include “SORN Notice (Privacy Act)” in the subject line of the message.

Mail: Thomas Tso, Senior Agency Official for Privacy, Federal Labor Relations Authority, 1400 K Street NW, Washington, DC 20424–0001.

Instructions: Do not mail written comments if they have been submitted via email. Interested persons who mail written comments must submit an original and 4 copies of each written comment, with any enclosures, on 8½ x 11 inch paper. Do not deliver comments by hand.

FOR FURTHER INFORMATION CONTACT: If you have any questions, please contact Thomas Tso, Solicitor, Senior Agency Official for Privacy, at (771) 444–5779.

SUPPLEMENTARY INFORMATION: The Privacy Act of 1974 requires that each agency publish notice of all the systems of records that it maintains. This document proposes the introduction of a new system of records. The “Freedom of Information Act Request and Appeal Files” is the system that the FLRA uses to provide the public with a single location to submit and track Freedom of Information Act (FOIA) and related requests and appeals filed with the FLRA. The FLRA had used this single system to track Privacy Act requests, which are often combined with FOIA requests, see 82 FR 49813 (October 27, 2017). Other agencies have also treated Privacy Act and FOIA requests as a singular system of records. *E.g.*, Department of Treasury, *Freedom of Information Act/Privacy Act Request Records*, 81 FR 78266 (Nov. 7, 2016).

The FLRA now proposes a new system of records, titled “Privacy Act Requests and Appeals,” to separate Privacy Act request records as an independent system of records. Pursuant to the Creating Advanced Streamlined Electronic Services for Constituents Act of 2019 (“CASES Act”), Public Law 116–50, 133 Stat. 1073 (2019), the Office of Management and Budget’s M–21–04, “Modernizing Access to and Consent for Disclosure of Records Subject to the Privacy Act,” asks agencies to “provide a digital service option to ensure that individuals have the ability to digitally request access to or consent to disclosure of their records” covered by the Privacy Act. M–21–04 also asks agencies to “review SORNs governing systems of records that include Privacy Act requests for access to and consent to disclosure of records, and, if necessary, modify those SORNs, as well.” The FLRA determined that a separate system

of records should be used to track the documents generated by requests under the Privacy Act, which may include different information or use different forms than requests under FOIA.

j. To another Federal agency or Federal entity, when the FLRA determines that information from this system of records is reasonably necessary to assist the recipient agency or entity in (1) responding to a suspected or confirmed breach or (2) preventing, minimizing, or remedying the risk of harm to individuals, the recipient agency or entity (including its information systems, programs, and operations), the Federal Government, or national security, resulting from a suspected or confirmed breach.

k. To contractors, grantees, experts, consultants, students, and others performing or working on a contract, service, grant, cooperative agreement, or other assignment for the Federal Government, when necessary to accomplish an agency function related to this system of records.

l. To such recipients and under such circumstances and procedures as are mandated by Federal statute, regulation, or treaty.

SUPPLEMENTARY INFORMATION:

Background

The project scope consists of the modernization of a LPOE in order to meet the U.S. Customs and Border Protection (CBP) current Program of Requirements to carry out their agency mission at the international border crossing between Norton, Vermont and Stanhope, Quebec. The existing LPOE was constructed in 1933, with a truck facility constructed in 1961. Two additional garages were built in 2003. The main building is listed on the National Register of Historic Places. The current facilities are significantly outdated and do not meet the CBP's current LPOE design standards.

The proposed modernization of the Norton, Vermont LPOE would help improve traffic flow, enhance security, and facilitate trade and travel in the region. The proposed new facility will strengthen supply chains, improve operational capabilities and facility infrastructure, spur economic growth, and bolster the country's security.

Alternatives Under Consideration

GSA intends to prepare an EIS to analyze the potential environmental impacts resulting from the proposed modernization of the Norton, Vermont LPOE. The EIS will consider at a minimum, one “action” alternative and one “no action” alternative. The action
