

- What can be done to help pregnant and postpartum individuals feel more comfortable to open up about how they are feeling? Who, where, and how might pregnant and postpartum individuals feel safest about disclosing their experience?

3. Evidence-based Intervention and Treatment:

- What are key evidence-based intervention and treatment models that should be broadly implemented to address maternal mental health and substance use?

- Do providers have the training and resources to appropriately provide evidenced-based intervention and treatment or referral?

- Are community-based resources being utilized to bridge the gap in education, evidence-based screening, and treatment or referral? If not, what are the challenges of incorporating culturally competent community-based health care workers?

- What are the barriers/gaps to evidence-based intervention for maternal mental health and substance use among reproductive age individuals? How do access and engagement differ between people who have already received mental health and/or substance use treatment prior to pregnancy versus those who never have?

- Are underserved populations represented in the research and subsequent guidelines developed from the research for screening and treatment? What evidence is still needed to inform guidelines for screening and treatment, including for underrepresented, underserved populations?

- Underserved populations may include Black, Latino, and Indigenous and American Indian/Alaska Native persons, Asian Americans and Pacific Islanders and other persons of color; members of religious minorities; lesbian, gay, bisexual, transgender, queer, and intersex (LGBTQI+) persons; persons with disabilities; persons who live in rural areas; and persons otherwise adversely affected by persistent poverty or inequality.

4. Evidence-Based Community Practices:

- What are the most pressing needs related to maternal mental health and maternal substance use in your community? For the purposes of this question, please define “community” however it most resonates with you (e.g., geography, race, ethnicity, sexual orientation, and gender identity, disability status, American Indian/Alaska Native status, veteran status, etc.)

- What strategies have been the most successful, transformative, and/or sustainable in addressing maternal mental health and maternal substance use needs in your community? What strategies have been the least successful, transformative, and/or sustainable, and why?

- What innovations are needed to better address maternal mental health and substance use needs in your community (i.e., how can community-based organizations and entrepreneurs partner to address gaps and provide support for areas of identified need)?

5. Communications and Community Engagement:

- What do ideal services and resources look like for a pregnant or postpartum individual in your community? And what are barriers to access to these services?

- What steps should be taken to ensure that approaches to detecting maternal emotional health issues and substance use challenges are culturally appropriate?

- What can be done to help mothers and pregnant and postpartum people feel more comfortable to open up about how they are feeling? Who, where, and how might mothers and pregnant and postpartum people feel safest about disclosing their experience?
