

SUPPLEMENTARY INFORMATION:

OMB Number: 3133–0102.

Title: Truth in Lending (TILA); Regulation Z.

Type of Review: Extension of a previously approved collection.

Abstract: The Truth in Lending Act (TILA) was enacted to foster comparison credit shopping and informed credit decision making by requiring accurate disclosure of the costs and terms of credit to consumers and to protect consumers against inaccurate and unfair credit billing practices. TILA has been revised numerous times since it took effect, notably by passage of the Fair Credit Billing Act of 1974, the Consumer Leasing Act of 1976, the Truth in Lending Simplification and Reform Act of 1980, the Fair Credit and Charge Card Disclosure Act of 1988, and the Home Equity Loan Consumer Protection Act of 1988. Historically, TILA was implemented by the Board of Governors of the Federal Reserve System's (FRB) Regulation Z, 12 CFR part 226. The Dodd-Frank Wall Street Reform and Consumer Protection Act transferred FRB's rulemaking authority for TILA to the Consumer Financial Protection Bureau (CFPB).

Regulation Z contains several provisions that impose information collection requirements: The information collection requirements for open-end credit products; the information collection requirements for closed-end credit; the information collection requirements that apply to both open- and closed-end mortgage credit; the information collection requirements for specific residential mortgage types—namely, reverse mortgages and high cost mortgages with rates and fees above specified thresholds; the information collection requirements for private education loans; and information collection requirements related to Regulation Z's advertising and record retention rules.

The collection of information pursuant to Part 1026 is triggered by specific events and disclosures and must be provided to consumers within the time periods established under the regulation. To ease the compliance cost (particularly for small credit unions), model forms and clauses are appended to the regulation.

Affected Public: Private Sector: Not-for-profit institutions.

Estimated Total Annual Burden Hours: 2,906,986.

OMB Number: 3133–0180.

Title: Liquidity and Contingency Funding Plans, 12 CFR 741.12.

Type of Review: Extension of a previously approved collection.

Abstract: Section 741.12 establishes a three-tier framework for FICUs, based on asset size. FICUs with assets under \$50 million must maintain a basic policy, those with assets of \$50 million and over must maintain a contingency funding plan, and those with assets over \$250 million must maintain a contingency funding plan and establish a federal liquidity contingency source. The reviews will conclude if federally insured credit unions are maintaining appropriate liquidity levels for the amount of balance sheet risk exposure and help prevent losses to credit unions and the NCUSIF.

Affected Public: Private Sector: Not-for-profit institutions.

Estimated Total Annual Burden Hours: 4,248.

OMB Number: 3133–0186.

Title: Higher-Risk Mortgage Appraisals.

Type of Review: Revision of a currently approved collection.

Abstract: Section 1471 of the Dodd-Frank Act established Truth in Lending section 129H, which contains appraisal requirements applicable to higher-risk mortgages and prohibits a creditor from extending credit in the form of a higher-risk mortgage loan to any consumer without meeting those requirements. A higher-risk mortgage is defined as a residential mortgage loan secured by a principal dwelling with an annual percentage rate that exceeds the average prime offer rate for a comparable transaction as of the date the interest rate is set by certain enumerated percentage point spreads. This statutory requirement is promulgated in 12 CFR part 1026, Regulation Z, by the Bureau of Consumer Financial Protection, the Board of Governors of the Federal Reserve, the Federal Deposit Insurance Corporation, the Federal Housing Finance Authority, the NCUA, and the Office of the Comptroller of the Currency. The information collections are required by statute, are necessary to protect consumers, and promote the safety and soundness of creditors making higher-risk mortgage loans.

Affected Public: Private Sector: Not-for-profit institutions.

Estimated Total Annual Burden Hours: 236.

SUPPLEMENTARY INFORMATION: Sections 4041 and 4042 of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), 29 U.S.C. 13019-1461, govern the termination of single-employer defined benefit pension plans that are subject to title IV of ERISA. A plan administrator may initiate a distress termination pursuant to section 4041(c), and PBGC may itself initiate proceedings to terminate a pension plan under section 4042 if PBGC determines that certain conditions are present. Under sections 4041 and 4042 of ERISA, upon a request by an affected party, a plan administrator must disclose information it has submitted to PBGC in connection with a distress termination filing, and a plan administrator or plan sponsor must disclose information it has submitted to PBGC in connection with a PBGC-initiated termination. The provisions also require PBGC to disclose the administrative record relating to a PBGC-initiated termination upon request by an affected party.

The existing collection of information was approved under OMB control number 1212-0065 (expires April 30, 2024). On October 27, 2023, PBGC published in the *Federal Register* (at 88 FR 73887) a notice informing the public of its intent to request an extension of this collection of information. No comments were received. PBGC is requesting that OMB extend approval of the collection for three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that approximately 30 plans will terminate as distress or PBGC-initiated terminations each year and that two participants or other affected parties of every nine distress terminations or PBGC-initiated terminations filed will annually make requests for termination information, or $\frac{2}{9}$ of 30 (approximately 7 per year). PBGC estimates that the hour burden for each request will be about 20 hours. PBGC expects that the staff of plan administrators and sponsors will perform the work in-house and that no work will be contracted to third parties. The total annual hour burden is estimated to be 140 hours (7 plans \times 20 hours), and the total annual cost burden is estimated to be \$0.

Issued in Washington, DC.

Hilary Duke,

Assistant General Counsel for Regulatory Affairs, Pension Benefit Guaranty Corporation.
