SUPPLEMENTARY INFORMATION:

History

The FAA published a final rule in the **Federal Register** (88 FR 88528; December 22, 2023) for Docket FAA–2023–1006, which modified Class E airspace extending upward from 700 feet above the surface at the Minden-Tahoe Airport, Minden, NV. Subsequent to publication, the FAA identified that line one of the Class E airspace legal description contained the two-letter abbreviation for the state as “CA”, which was incorrect. The two-letter abbreviation of the state in line one of the legal description should be “NV”. This action corrects the error.

Correction to the Final Rule

In FR Doc 2023–28228 at 88529, published in the **Federal Register** on December 22, 2023, the FAA makes the following corrections:

■ 1. On page 88529, in the second column, correct the first line of the legal description for E5 Minden, NV to read as follows:

AWP NV E5 Minden, NV [Corrected]

Issued in Des Moines, Washington, on January 5, 2024.
