HUD bases the following estimates on historical experience. HUD estimates it takes an average of 30 working hours for HUD to complete its pre-award activities associated with competitive applications, including parts 1 and 2 of the pre-award process. This includes activities related to proper storage of related records. For purposes of this information collection request, HUD has used a GS 13 step 5 rate (\$51.25 per hour) to monetize the value of HUD time. Therefore, the burden for pre-award activities is as follows using average response times:

30,000 applications \* 30 hours \* 1.2 frequency = 1,080,000 hours  
 1,080,000 hours \* \$51.25 = \$55,350,000

If the Department incurs any unique start-up or operational and maintenance costs with the collection of information covered by this ICR, HUD will include them on the request to OMB.
