

(1) One producer member, selected from and representing all producers, who is unaffiliated with any handler (including, but not limited to, ownership, employment, or agent of any handler, and whose family members are similarly unaffiliated with any handler); and

(2) The remaining producer member(s) selected from and representing all other independent and small cooperative producers.

(b) Pursuant to section § 989.26(b)(2), and commencing with the term of office beginning May 1, 2026, apportionment of the independent and small cooperative marketing association handlers shall be:

(1) Two members selected from and representing the four handler(s) other than major cooperative marketing association handler(s) who acquired the largest percentage of the total raisin acquisitions during the preceding crop year; and

(2) The remaining member(s) selected from and representing all other handlers, including small cooperative marketing association handler(s) and all processors.

■ 13. Revise § 989.129 to read as follows:

**§ 989.129 Voting at nomination meetings.**

Any person (defined in § 989.3 as an individual, partnership, corporation, association, or any other business unit) who is engaged, in a proprietary capacity, in the production of grapes which are sun-dried or dehydrated by artificial means to produce raisins and who qualifies under the provisions of § 989.29(b)(2) shall be eligible to cast one ballot for a nominee for each producer member position and one ballot for a nominee for each producer alternate member position on the Committee which is to be filled. Such person must be the one who or which: Owns and farms land resulting in his or its ownership of such grapes produced thereon; rents and farms land, resulting in his or its ownership of all or a portion of such grapes produced thereon; or owns land which he or it does not farm and, as rental for such land, obtains the ownership of a portion of such grapes or the raisins. In this connection, a partnership shall be deemed to include two or more persons (including a husband and wife) with respect to land the title to which, or leasehold interest in which, is vested in them as tenants in common, joint tenants, or under community property laws, as community property. In a landlord-tenant relationship, wherein each of the parties is a producer, each such producer shall be entitled to one vote

for a nominee for each producer member position and one vote for each producer alternate member position. Hence, where two persons operate land as landlord and tenant on a share-crop basis, each person is entitled to one vote for each such position to be filled.

Where land is leased on a cash rental basis, only the person who is the tenant or cash renter (producer) is entitled to vote. A partnership or corporation, when eligible, is entitled to cast only one vote for a nominee for each producer position to be filled.

#### **SUPPLEMENTARY INFORMATION**

##### **I. Executive Summary**

In this NPRM, the Department is proposing to revise its title II ADA regulations, 28 CFR part 35, to adopt the standards for accessible MDE issued by the Architectural and Transportation Barriers Compliance Board (“Access Board”), 36 CFR part 1195, app. (“MDE Standards”). The Access Board issued the MDE Standards under section 510 of the Rehabilitation Act, 29 U.S.C. 794f. The Department is proposing to adopt specific technical standards and scoping requirements under the ADA to ensure that MDE used by public entities to offer services, programs, and activities at places such as hospitals and other health care facilities is accessible to individuals with disabilities. MDE includes things like medical examination tables, weight scales, dental chairs, and radiological diagnostic equipment. Without accessible MDE, individuals with disabilities may not be afforded an equal opportunity to receive medical care, including routine examinations, which could have serious implications for their health. A lack of accessible MDE may also undermine the quality of care received by individuals with disabilities, “leading to delayed and incomplete care, missed diagnoses, exacerbation of the original disability, and increases in the likelihood of the development of secondary conditions.”<sup>1</sup> For instance, patients
