Accordingly, the following BLM SORNs were identified for rescindment during a routine review, as it was determined these SORNs are covered under three Department-wide SORNs. Therefore, DOI is rescinding these four BLM SORNs to avoid duplication of existing SORNs in accordance with the OMB Circular A-108, *Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act*.

SUPPLEMENTARY INFORMATION: This document provides notice that the BLM Nevada State Director has prepared a Draft RMP Amendment/EIS and provides information announcing the opening of the comment period on the Draft RMP Amendment/EIS. The RMP Amendment is being considered to allow the BLM to evaluate the effects of modifying the Visual Resource Management (VRM) Class III designated lands south of State Route 160 and west of Tecopa Road to the Town of Pahrump, Nevada to VRM Class IV, which would require amending the existing 1998 Las Vegas RMP.

The planning area in Clark and Nye Counties, Nevada encompasses approximately 9,890,365 acres within the Southern Nevada District area. The total acreage for the VRM Class I through IV areas designated under the 1998 Las Vegas RMP is approximately 3,297,016 acres.

The RMP Amendment would encompass approximately 9,960 acres of BLM-administered land currently designated as VRM Class III. An amendment to the Las Vegas RMP is being considered to update the BLM's VRM management objectives in this area to VRM Class IV. The amendment area would include the proposed Rough Hat Clark Solar Project area along with other constructed projects and proposed solar applications within the Pahrump Valley.

The BLM is utilizing the NEPA substitution process to comply with the requirements of section 106 of the National Historic Preservation Act, 54 U.S.C. 306108, consistent with 36 CFR 800.8(c). The BLM, as lead Federal agency, has incorporated information and the steps of the section 106 process into the Draft EIS, and publication of the
