**SUPPLEMENTARY INFORMATION:** The Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act) (Pub. L. 93-288, as amended) is the legal basis for FEMA to provide financial assistance and services to individuals who apply for disaster assistance in the event of a declared Emergency or Major disaster. The Individuals and Households Program provides financial assistance and, if necessary, direct assistance to eligible individuals and households who, as a direct result of a major disaster or emergency declaration, have uninsured or under-insured necessary expenses, a serious need and are unable to meet such expenses or needs through other means under section 408 of the Stafford Act, as codified at 42 U.S.C. 5174, and its implementing regulations at 44 CFR 206.110. FEMA requires the ability to collect information regarding the housing needs of shelter residents expressing interest in or seeking disaster assistance to provide services and assistance to transition them out of shelters and into temporary or permanent housing solutions expeditiously. Additionally, aggregated reports resulting from the individualized data collection about shelter residents and their unmet housing and related needs will support planning activities for FEMA, state entities, and Non-Governmental Organizations to transition residents out of the shelter.

This proposed information collection previously published in the **Federal Register** on September 27, 2023, at 88 FR 66478 with a 60-day public comment period. One public comment was received with multiple questions about the instrument itself.
