

data, training screeners, conducting the oral health screening at schools or Head Start sites. Screeners record four data points either electronically or on a paper form: (1) presence of treated caries; (2) presence of untreated tooth decay; (3) urgency of need for treatment; and (4) presence of dental sealants on at least one permanent molar tooth.

State programs enter, clean and analyze the data; de-identify it; and respond to ASTDD’s annual email request for State-aggregated prevalence of dental caries and sealants. ASTDD

reviews the data to ensure that both survey design and data meet specific criteria before sending it to CDC for publication on the CDC’s public-facing Oral Health Data website (www.cdc.gov/oralhealthdata).

BSS for children serves as a key State oral health surveillance data source and facilitates State capacity to: (1) monitor children’s oral health status, trends, and disparities, and compare with other States; (2) inform planning, implementation and evaluation of effective oral health programs and

policies; (3) measure State progress toward Healthy People objectives; and (4) educate the public and policy makers regarding cross-cutting public health programs. CDC also uses the data to evaluate performance of CDC oral health funding recipients.

The estimated total annualized burden hours for the survey across the 34 States over the three years of this request are 40,207. There are no costs to children respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Child	Screening form	150,370	1	5/60	12,531
Parent/caretaker	Consent	150,370	1	1/60	2,506
Screener	Screening form	301	1	666/60	3,341
School/site	Participation form	2,890	1	68/60	3,275
State Official	Data Submission form	34	1	32,742/60	18,554
Total					40,207

Jeffrey M. Zirger,

Lead, Information Collection Review Office, Office of Public Health Ethics and Regulations, Office of Science, Centers for Disease Control and Prevention.
