Proposed Consent Decree, Clean Air Act Citizen Suit

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed consent decree; request for public comment.

SUMMARY: In accordance with the Clean Air Act, as amended (CAA or the Act), notice is given of a proposed consent decree to address lawsuits filed by the South Coast Air Quality Management District, East Yard Communities for Environmental Justice, People's Collective for Environmental Justice, and Sierra Club (collectively, "Plaintiffs") in the United States District Court for the Central District of California: *South Coast Air Quality Management District, East Yard Communities for Environmental Justice, People's Collective for Environmental Justice, and Sierra Club v. U.S. EPA and Michael Regan, in his official capacity*, No. 2:23-cv-02646-JLS-PD (C.D. Cal.) and consolidated case (No. 2:23-cv-03545-JLS-PD). Plaintiffs filed complaints alleging that the Environmental Protection Agency (EPA) failed to perform certain non-discretionary duties in accordance with the Act to take final action on a state implementation plan (SIP) revision submitted by the State of California. EPA is providing notice of this proposed consent decree, which would resolve all claims in the case by establishing a deadline for EPA to take final action as specified in the decree.

DATES: Written comments on the proposed consent decree must be received by February 20, 2024.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OGC-2024-0012, online at <https://www.regulations.gov> (EPA's preferred

method). Follow the online instructions for submitting comments.

II. Additional Information About the Proposed Consent Decree

The proposed consent decree would establish a deadline for EPA to take action pursuant to CAA section 110(k) on a SIP revision submitted by the State of California on December 31, 2019. This SIP revision was submitted to address the contingency measure requirements of CAA section 182(e)(5)

for the 1997 ozone national ambient air quality standards in the Los Angeles-South Coast Air Basin, California, ozone nonattainment area. The proposed consent decree would require EPA to sign a notice of final rulemaking by July 1, 2024, and, within 15 business days of signature, to send the required signed notice of final rulemaking to the Office of the Federal Register for review and publication.

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed consent decree. SUPPLEMENTARY INFORMATION:

I. Executive Summary

A. What action is the Agency taking?

This document provides the receipt and status reports for the period from 12/01/2023 to 12/31/2023. The Agency is providing notice of receipt of PMNs, SNUNs, and MCANs (including amended notices and test information); an exemption application under 40 CFR part 725 (Biotech exemption); TMEs, both pending and/or concluded; NOCs to manufacture a new chemical substance; and a periodic status report on new chemical substances that are currently under EPA review or have recently concluded review.

EPA is also providing information on its website about cases reviewed under the amended TSCA, including the

section 5 PMN/SNUN/MCAN and exemption notices received, the date of receipt, the final EPA determination on the notice, and the effective date of EPA's determination for PMN/SNUN/MCAN notices on its website at: <https://www.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tsca/status-pre-manufacture-notices>. This information is updated on a weekly basis.

B. What is the Agency's authority for taking this action?

Under the Toxic Substances Control Act (TSCA), 15 U.S.C. 2601 *et seq.*, a chemical substance may be either an "existing" chemical substance or a "new" chemical substance. Any chemical substance that is not on EPA's TSCA Inventory of Chemical Substances (TSCA Inventory) is classified as a "new chemical substance," while a chemical substance that is listed on the TSCA Inventory is classified as an "existing chemical substance." (See TSCA section 3(11).) For more information about the TSCA Inventory please go to: <https://www.epa.gov/tsca-inventory>.

Any person who intends to manufacture (including import) a new chemical substance for a non-exempt commercial purpose, or to manufacture or process a chemical substance in a non-exempt manner for a use that EPA has determined is a significant new use, is required by TSCA section 5 to provide EPA with a PMN, MCAN, or SNUN, as appropriate, before initiating the activity. EPA will review the notice, make a risk determination on the chemical substance or significant new use, and take appropriate action as described in TSCA section 5(a)(3).

TSCA section 5(h)(1) authorizes EPA to allow persons, upon application and under appropriate restrictions, to manufacture or process a new chemical substance, or a chemical substance subject to a significant new use rule (SNUR) issued under TSCA section 5(a)(2), for "test marketing" purposes, upon a showing that the manufacture, processing, distribution in commerce, use, and disposal of the chemical will not present an unreasonable risk of injury to health or the environment. This is referred to as a test marketing exemption, or TME. For more information about the requirements applicable to a new chemical go to: <https://www.epa.gov/chemicals-under-tsca>.

Under TSCA sections 5 and 8 and EPA regulations, EPA is required to publish in the **Federal Register** certain information, including notice of receipt of a PMN/SNUN/MCAN (including amended notices and test information);
