

of the overall market. Based on publicly available information, no single options exchange has more than 12% of the market share.¹⁵ Therefore, no exchange possesses significant pricing power in the execution of option order flow. Indeed, participants can readily choose to send their orders to other exchange and off-exchange venues if they deem fee levels at those other venues to be more favorable. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”¹⁶ The fact that this market is competitive has also long been recognized by the courts. In *NetCoalition v. Securities and Exchange Commission*, the D.C. Circuit stated as follows: “[n]o one disputes that competition for order flow is ‘fierce.’ . . . As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; [and] ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers’”¹⁷ Accordingly, the Exchange does not believe its proposed fee change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)

of the Act¹⁸ and paragraph (f) of Rule 19b-4¹⁹ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Price List to (1) extend a fee waiver for new firm application fees for applicants seeking only to obtain a BTL for 2024; and (2) waive the BTL fee for 2024.⁴ The Exchange proposes to implement the fee changes effective January 2, 2024.

The Exchange currently charges a New Firm Fee ranging from \$2,000 to \$4,000, depending on the type of firm, which is charged per application for any broker-dealer that applies to be approved as an Exchange member organization. The Exchange proposes to amend the Price List to waive the New Firm Fee for 2024 for new member organization applicants that are seeking only to obtain a BTL and not trade equities at the Exchange. The proposed waiver of the New Firm Fee would be available only to applicants seeking approval as a new member organization, including carrying firms, introducing firms, or non-public organizations, which would be seeking to obtain a BTL at the Exchange and not trade equities. Further, if a new firm that is approved

as a member organization and has had the New Firm Fee waived converts a BTL to a full trading license within one year of approval, the New Firm Fee would be charged in full retroactively. The Exchange believes that charging the New Firm Fee retroactively within a year of approval is appropriate because it would discourage applicants to claim that they are applying for a BTL solely to avoid New Firm Fees.

Additionally, the Exchange currently charges a BTL fee of \$1,000 per year. The Exchange proposes to amend the Price List to waive the BTL fee for 2024 for all member organizations.

The Exchange believes that the proposed fee changes would provide increased incentives for bond trading firms that are not currently Exchange member organizations to apply for Exchange membership and a BTL. The Exchange believes that having more member organizations trading on the Exchange's bond platform would benefit investors through the additional display of liquidity and increased execution opportunities in Exchange-traded bonds at the Exchange.

2. Statutory Basis

The Exchange proposes to amend its Price List to (1) extend a fee waiver for new firm application fees for applicants seeking only to obtain a BTL for 2024; and (2) waive the BTL fee for 2024.⁵ The Exchange proposes to implement the fee changes effective January 2, 2024.

The Exchange currently charges a New Firm Fee ranging from \$2,000 to \$4,000, depending on the type of firm, which is charged per application for any broker-dealer that applies to be approved as an Exchange member organization. The Exchange proposes to amend the Price List to waive the New Firm Fee for 2024 for new member organization applicants that are seeking only to obtain a BTL and not trade equities at the Exchange. The proposed waiver of the New Firm Fee would be available only to applicants seeking

approval as a new member organization, including carrying firms, introducing firms, or non-public organizations, which would be seeking to obtain a BTL at the Exchange and not trade equities. Further, if a new firm that is approved as a member organization and has had the New Firm Fee waived converts a BTL to a full trading license within one year of approval, the New Firm Fee would be charged in full retroactively. The Exchange believes that charging the New Firm Fee retroactively within a year of approval is appropriate because it would discourage applicants to claim that they are applying for a BTL solely to avoid New Firm Fees.

Additionally, the Exchange currently charges a BTL fee of \$1,000 per year. The Exchange proposes to amend the Price List to waive the BTL fee for 2024 for all member organizations.

The Exchange believes that the proposed fee changes would provide increased incentives for bond trading firms that are not currently Exchange member organizations to apply for Exchange membership and a BTL. The Exchange believes that having more member organizations trading on the Exchange's bond platform would benefit investors through the additional display of liquidity and increased execution opportunities in Exchange-traded bonds at the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act,⁶ the Exchange believes that the proposed rule change would not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Debt securities typically trade in a decentralized over-the-counter ("OTC") dealer market that is less liquid and transparent than the equities markets. The Exchange believes that the proposed change would increase competition with these OTC venues by reducing the cost of being approved as and operating as an Exchange member organization that solely trades bonds at the Exchange, which the Exchange believes will enhance market quality through the additional display of liquidity and increased execution opportunities in Exchange-traded bonds at the Exchange.

The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues that are not transparent. In such an environment, the Exchange must continually review, and consider adjusting its fees and

rebates to remain competitive with other exchanges as well as with alternative trading systems and other venues that are not required to comply with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees and credits in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited. As a result of all of these considerations, the Exchange does not believe that the proposed change will impair the ability of member organizations or competing order execution venues to maintain their competitive standing in the financial markets.
