DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS-R6-ES-2023-0203; FXES11130600000-223-FF06E00000]

Endangered and Threatened Wildlife and Plants; Establishment of an Experimental Population of the Grizzly Bear in the Bitterroot Ecosystem of the States of Idaho and Montana; Environmental Impact Statement

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notification of intent, announcement of public meetings, and request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), intend to prepare an environmental impact statement (EIS) under the National Environmental Policy Act of 1969, as amended, to evaluate the potential environmental impacts of restoring the grizzly bear (*Ursus arctos horribilis*) to the Bitterroot Ecosystem (BE), a portion of the species' historical range, in Montana and Idaho. We previously issued a final EIS, record of decision, and final rule under section 10(j) of the Endangered Species Act of 1973, as amended, to reintroduce grizzly bears to the BE as a nonessential experimental population. However, conditions have changed, so we intend to reevaluate a range of options to restore the grizzly bear to the BE during the development of a new EIS. We invite input from other Federal and State agencies, Tribes, nongovernmental organizations, private-sector businesses, and members of the public on the scope of the EIS, alternatives to our proposed approaches for assisting in the restoration of the grizzly bear in the BE, and the pertinent issues that we should address in the EIS. We also invite the public and interested parties to attend virtual public scoping meetings.

DATES:

Comment submission: We will accept comments received or postmarked on or before March 18, 2024. Comments submitted electronically using the Federal eRulemaking Portal (see **ADDRESSES**, below) must be received by 11:59 p.m. eastern time on the closing date.

Public scoping meetings: We will host at least two virtual public scoping meetings to share information regarding the development of the draft EIS and allow the public to ask questions regarding the scope of issues and the proposed alternatives. We will announce the dates, times, and details of these virtual public scoping meetings
