Needs and Uses: The National Marine Fisheries Service (NMFS), Southeast Regional Office (SERO), Permits Office administers Federal fishing permits in the U.S. exclusive economic zone (EEZ) of the Caribbean Sea, Gulf of Mexico (Gulf), and South Atlantic under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1801. The SERO Permits Office proposes to extend and to revise parts of the current collections-of-information approved under OMB Control Number 0648-0205.

The NMFS Southeast Region manages the U.S. Federal fisheries in the Caribbean, Gulf, and South Atlantic under the fishery management plans (FMPs) for each region. The regional fishery management councils prepared the FMPs pursuant to the Magnuson-Stevens Act. The regulations implementing the FMPs, including those that have recordkeeping and reporting requirements, are located at 50 CFR part 622.

The recordkeeping and reporting requirements at 50 CFR part 622 form the basis for this collection of information. The NMFS Southeast Region requests information from fishery participants. This information, upon receipt, results in an increasingly more efficient and accurate database for management and monitoring of the Federal fisheries in the Caribbean, Gulf, and South Atlantic.

The SERO Permits Office proposes to extend and to revise the collection-of-

information approved under OMB Control Number 0648-0205. NMFS proposes to revise the Federal permit applications for Vessels Fishing in the EEZ (Vessel EEZ), Change of Information Form, Vessel Fishing in the Colombian Treaty Waters, Duplicate Federal Fishery Permits, Operator Card or Decal, Aquacultured Live Rock (new permit), Aquacultured Live Rock (permit renewal), Harvest of Aquacultured Live Rock in the EEZ, Southeast Region Issued Operator Card, Consolidate Gulf of Mexico Reef Fish permits, Vessels Fishing for Wreckfish in the South Atlantic States (Wreckfish), and the Annual Dealer permit.

The proposed revisions to the specified application forms are administrative and would combine two socio-economic questions into one, along with making them optional instead of required. The revisions would also update the payment method of Floy tags. Instead of the permit holder sending a check to NMFS with the application, Floy Tag, Inc., will begin reaching out to the permit holder for payment once the permit is issued. NMFS estimates that the proposed revisions would not change the annual number of respondents or responses, or annual costs to affected permit applicants from estimates in the currently approved collection. Across the application forms, NMFS estimates these revisions would not increase the overall time burden.

The SERO Permits Office also proposes to modify the limited access permits by updating the form field name related to the selling price of the permit, along with removing the section related to the permit's selling price. NMFS does not anticipate these revisions will materially change the time burden to the applicants.

The SERO Permits Office also proposes to modify the Vessel EEZ application to include a checkbox and language related to the compliance of regulatory requirements. NMFS does not anticipate these revisions to the form will materially change the time burden to the applicants.

Affected Public: Businesses or other for-profit organizations, and individuals or households.

Frequency: Annual and periodic.

Respondent's Obligation: Mandatory.

Legal Authority: 16 U.S.C. 1801 *et seq.*
