

DEPARTMENT OF COMMERCE**International Trade Administration****Amended Trade Mission Application Deadline to the U.S. Environmental Technologies Business Development Mission to IFAT**

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice.

SUMMARY: The U. S. Department of Commerce, International Trade Administration (ITA), is organizing a U.S. Environmental Technologies Business Development Mission to IFAT (Internationale Fachausstellung fuer Abwasser Technologie) an environmental technologies trade show in Munich, Germany, from May 13–15, 2024, with an optional program to the Czech Republic and Slovakia from May 8–10, 2024. This notice is to update the prior **Federal Register** notice to reflect that the application deadline is now extended to January 31, 2024.

FOR FURTHER INFORMATION CONTACT: Jeffrey Odum, Global Trade Programs, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington DC 20230; telephone (202) 482–6397 or email Jeffrey.Odum@trade.gov.

SUPPLEMENTARY INFORMATION: Amendment to Revise the Trade Mission Deadline for Submitting Applications.

Background**U.S. Environmental Technologies Business Development Mission to IFAT**

The International Trade Administration has determined that to allow for optimal execution of recruitment, the application deadline has been extended from January 12, 2024, to January 31, 2024. Applications may be accepted after that date if space remains and scheduling constraints permit. Interested U.S. companies and trade associations/organizations that have not already submitted an application are encouraged to do so. The U.S. Department of Commerce will review applications and make selection decisions on a rolling basis in accordance with the 88 FR 69901 (October 10, 2023). The applicants selected will be notified as soon as possible.

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Southeast Region Dealer and Interview Family of Forms**

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before March 25, 2024.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov. Please reference OMB Control Number 0648–0013 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Dr. David Gloeckner, Supervisory Mathematical Statistician, 75 Virginia Beach Drive, Bldg. 1, Miami, FL 33149–1003 (305) 361–4257 or david.gloeckner@noaa.gov.

SUPPLEMENTARY INFORMATION:**I. Abstract**

This request is for renewal of a current information collection. Fishery quotas are established for many species in the fishery management plans developed by the Gulf of Mexico Reef Fish Fishery Management Council, the South Atlantic Fishery Management Council, and The Caribbean Fishery Management Council. The Southeast Fisheries Science Center has been delegated the responsibility to monitor these quotas. To do so in a timely manner, seafood dealers that handle these species are required to report the purchases (landings) of these species. The frequency of these reporting requirements varies depending on the magnitude of the quota (*e.g.*, lower quota usually require more frequent reporting) and the intensity of fishing effort. The most common reporting frequency is weekly. Daily reporting is only used for one fishery.

In addition, information collection included in this family of forms includes interview with fishermen to gather information on the fishing effort, location and type of gear used on individual trips. This data collection is conducted for a subsample of the fishing trips and vessel/trips in selected commercial fisheries in the Southeast region and commercial fisheries of the US Caribbean. Fishing trips and individuals are selected at random to provide a viable statistical sample. These data are used for scientific analyses that support critical conservation and management decisions made by national and international fishery management organizations.

II. Method of Collection

Dealer reports used for quota monitoring are reported electronically for all, but one fishery (mackerel gillnet) is reported via fax or email. Bio profile
