SUPPLEMENTARY INFORMATION:

Title: Reports by Air Carriers on Incidents Involving Animals During Air Transport.

OMB Control Number: 2105-0552.

Type of Request: Reinstatement of Information Collection Request.

Background: The Wendell H. Ford Aviation Investment and Reform Act for the 21st Century or "AIR-21" (Pub. L. 106-181), which was signed into law on April 5, 2000, includes section 710, "Reports by Carriers on Incidents Involving Animals During Air Transport." This provision was codified

as 49 U.S.C. 41721. The statute requires air carriers that provide scheduled passenger air transportation to submit monthly to the Secretary of Transportation a report on any incidents involving the loss, injury, or death of an animal (as defined by the Secretary of Transportation) during air transport provided by the air carrier.

On August 11, 2003, DOT, through its Federal Aviation Administration (FAA), issued a final rule implementing section 710 of AIR-21.¹ The rule required air carriers that provide scheduled passenger air transportation to submit a report to APHIS on any incident involving the loss, injury, or death of an animal during air transportation provided by the air carrier. Due to issues regarding whether APHIS had the capability to accept such information directly from the carriers, DOT made a technical change in the rule on February 14, 2005 to require air carriers to submit the required information directly to DOT's Aviation Consumer Protection Division (ACPD) rather than APHIS and to make the rule part of DOT's economic regulations.²

On July 3, 2014, DOT published a final rule amending the requirement that air carriers file reports with DOT on the loss, injury, or death of animals during air transport.³ The rule (1) expanded the reporting requirement from the largest U.S. carriers (*i.e.*, U.S. carriers that account for at least 1 percent of domestic scheduled passenger revenue) to U.S. carriers that operate scheduled service with at least one aircraft with a design capacity of more than 60 seats; (2) expanded the definition of "animal" from only a pet in a family household to include all cats and dogs transported by covered carriers, regardless of whether the cat or dog is transported as a pet by its owner or as part of a commercial shipment (*e.g.*, shipped by a breeder); (3) required covered carriers to file a calendar-year report in December, even if the carrier did not have any reportable incidents during the calendar year; (4) required covered carriers to provide in their December reports the total number of animals that were lost, injured, or died during air transport in the calendar year; and (5) required covered carriers to provide in their December reports the total number of animals transported in
