The Federal Reserve Bank of New York, on behalf of the Federal Reserve System, collects data from primary dealers in the U.S. government securities market. Filing of these data is required to obtain the benefit of primary dealer status. The Federal Reserve uses these data to (1) monitor the condition of the U.S. government securities market in its Treasury market surveillance and analysis of the market and (2) assist and support the U.S. Department of the Treasury (Treasury) in its role as fiscal agent for Treasury financing operations. In addition, these data are used in the analysis of broad financial conditions and a range of financial stability issues.

Proposed revisions: Since the last clearance, a new type of repo financing called “sponsored general collateral repo” has gained significant popularity among clients of primary dealers. Such type of financing is not separately listed in the current FR 2004C. To improve our ability to track the usage of this product by primary dealers, the Board proposes to revise the FR 2004C for each asset category by adding three columns to separately capture sponsored general collateral Triparty Repo financing by maturity tenors. The proposed revisions would be effective with the first applicable as of date, June 5, 2024.

Frequency: Weekly, monthly, and event-generated.

Respondents: Primary government security dealers.

Total estimated number of respondents: 24.

Total estimated change in burden: 1,310.

Total estimated annual burden hours: 35,189.¹

Request for Comment on Information Collection Proposal

The Board invites public comment on the following information collections, which are being reviewed under authority delegated by the OMB under the PRA. Comments are invited on the following:

a. Whether the proposed collections of information are necessary for the proper performance of the Board's functions, including whether the information has practical utility;

b. The accuracy of the Board's estimate of the burden of the proposed information collections, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected;

d. Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

e. Estimates of capital or startup costs and costs of operation, maintenance, and purchase of services to provide information.

At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the Board should modify the proposal.

Proposal Under OMB Delegated Authority To Extend for Three Years, Without Revision, the Following Information Collections

Collection title: Interagency Notice of Change in Control.
