

enhancing transparency and enabling market participants to better assess the quality of MIAX Pearl Equities' execution and routing services by continuing to provide market participants with insight and transparency into which data feeds the Exchange utilizes when performing order handling, order execution, routing, and related compliance processes for equity securities. The Exchange also believes the proposal would enhance competition because it will potentially enhance the performance of its order handling and execution of orders in equity securities by receiving market data directly from IEX. Lastly, the proposed rule change will not impact competition between market participants because it will affect all market participants equally.
