#### SUPPLEMENTARY INFORMATION:

##### I. Background

On August 8, 2023, the Postal Service published a final rule amending its Supplemental Standards. 88 FR 53351. The final rule updated the outside employment and activity provisions (including prior approval requirements and prohibitions), added new requirements applicable to Postal Service Office of Inspector General (OIG) employees, Postal Service Governors, the Postmaster General, and the Deputy Postmaster General, and made limited technical and ministerial changes.

## FEDERAL TRADE COMMISSION

### 16 CFR Part 305

#### RIN 3084-AB15

#### Energy Labeling Rule

**AGENCY:** Federal Trade Commission.

**ACTION:** Final rule.

**SUMMARY:** The Federal Trade Commission ("Commission") amends its Energy Labeling Rule ("Rule") by publishing new ranges of comparability for required EnergyGuide labels on televisions.

**DATES:** The amendments are effective May 2, 2024.

**ADDRESSES:** Relevant portions of the record of this proceeding, including this document, are available at <https://www.ftc.gov>.

**FOR FURTHER INFORMATION CONTACT:** Hampton Newsome, (202) 326-2889, or Hong Park, (202) 326-2158, Attorneys, Division of Enforcement, Bureau of Consumer Protection, Federal Trade Commission, Room CC-6316, 600 Pennsylvania Avenue NW, Washington, DC 20580.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Commission issued the Energy Labeling Rule in 1979 pursuant to the Energy Policy and Conservation Act of

1975 (“EPCA”).<sup>1</sup> The Rule covers several categories of major household products, including televisions. It requires manufacturers of covered products to disclose specific energy consumption or efficiency information (derived from Department of Energy (“DOE”) test procedures) at the point of sale. In addition, each label must include a “range of comparability” indicating the highest and lowest energy consumption or efficiencies for comparable models. The Commission updates these ranges periodically.

**II. Range Updates for Televisions**

The Commission amends its television ranges in 16 CFR 305.25(f)(5) based on test data generated from DOE’s revised test procedure. In a rule document published in October 2022 issuing range updates for other covered products, the Commission postponed television range updates until DOE finalized a new test procedure for those products.<sup>2</sup> The document stated the FTC would publish updated ranges after data derived from the upcoming test procedure became available. DOE has issued a final test update, and new data is now available.<sup>3</sup> Accordingly, this publication contains the updates to the television ranges, along with related sample labels. In addition, these amendments update the cost figure on the television label to 16 cents per kWh based on the most recent national electricity cost information published by DOE.<sup>4</sup> Manufacturers should begin using the new ranges on labels for newly-produced units no later than May 2, 2024.

**III. Regulatory Flexibility Act**

The provisions of the Regulatory Flexibility Act relating to a Regulatory Flexibility Act analysis<sup>5</sup> are not applicable to this proceeding because the amendments do not impose any new obligations on entities regulated by the Energy Labeling Rule. These technical amendments merely provide a routine change to the range and cost information already required on EnergyGuide labels. The Commission has concluded, therefore, that a regulatory flexibility analysis is not necessary, and certifies, under Section 605 of the Regulatory Flexibility Act, that the amendments announced today will not have a significant economic impact on a substantial number of small entities.<sup>6</sup>

**IV. Paperwork Reduction Act**

The current Rule contains recordkeeping, disclosure, testing, and reporting requirements that constitute information collection requirements as defined by 5 CFR 1320.3(c), the definitional provision within the Office of Management and Budget (“OMB”) regulations that implement the Paperwork Reduction Act (“PRA”). OMB has approved the Rule’s existing information collection requirements through February 29, 2024 (OMB Control No. 3084–0069). The amendments now being adopted do not change the substance or frequency of the recordkeeping, disclosure, or reporting requirements and, therefore, do not require further OMB clearance.

**V. Other Matters**

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), the OMB’s Office of Information and Regulatory Affairs designated this rule as not a “major rule,” as defined by 5 U.S.C. 804(2).

**List of Subjects in 16 CFR Part 305**

Advertising, Energy conservation, Household appliances, Labeling, Reporting and recordkeeping requirements.

Accordingly, 16 CFR part 305 is amended as follows:

### Changes in Branch Office Registration Requirements

**AGENCY:** Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

**ACTION:** Final rule.

**SUMMARY:** The Office of the Assistant Secretary for Housing—Federal Housing Commissioner is issuing final regulations to amend the Department of Housing and Urban Development's (HUD) requirement for branch office registration. After considering public comments received in response to the proposed rule HUD published on March

1, 2023, this final rule adopts the proposed rule without change.

**SUPPLEMENTARY INFORMATION:**

**I. Background**

On March 1, 2023, HUD published the "Changes in Branch Office Registration Requirements" proposed rule ("the proposed rule") in the **Federal Register**.<sup>1</sup> In the proposed rule, HUD sought to revise 24 CFR 202.5(k) and (i) by eliminating the requirement that a lender or mortgagee register all branch offices used to conduct FHA business. This change would give lenders and mortgagees (1) the option to select which offices to register and maintain as branch offices with HUD, and (2) make fees applicable to each branch office that a lender or mortgagee registers with HUD, rather than applying fees to each

branch office where they are authorized to originate Title I or Title II loans. HUD based these changes on the mortgage industry's evolution over time, the advancement of technology, and due to no longer needing to maintain several branch offices to conduct FHA business nationwide.

Prior to 1995, HUD required each mortgagee office to get approval from the FHA Field Office(s) located where the lender or mortgagee intended to submit mortgages for insurance endorsement.<sup>2</sup> After 1995, HUD expanded the geographic areas where lenders and mortgagees were allowed to conduct FHA business. The expansion allowed FHA Field Offices to create a "lending area" and permitted lenders and mortgagees to conduct business with several FHA Field Offices within that area. HUD required that lenders and mortgagees "maintain at least one approved branch office within a 'lending area from which loans are submitted to the FHA Field Offices.'"<sup>3</sup> Currently, HUD follows its policy from HUD Handbook 4000.1 that was established in September of 2015. This policy calls a geographic area where a
