SUPPLEMENTARY INFORMATION: This SORN supported activities related to collecting and servicing various HUD/Federal Housing Association (FHA) debts under the Department's Title I and Generic Debt programs. The method used for retrieving records was assessed, and it was found that the system's records are retrieved using the Claim Number (also known as Case Number or Account Number) assigned to the debt. While the system has the capability to search using the debtors' Social Security Numbers, Names, and Addresses, these fields were never the primary methods of retrieval. As a result, the DCAMS system of records is being rescinded since it does not meet the legal definition. Though the systems will keep operating normally.

Bureau of Land Management

[BLM_NV_FRN_MO4500173782]

Notice To Segregate Lands From Mineral Entry for the Proposed Libra Solar Project in Mineral County, Nevada

AGENCY: Bureau of Land Management, Department of Interior.

ACTION: Notice of segregation.

SUMMARY: Through this notice, the Bureau of Land Management (BLM) is segregating public lands for the Libra Solar Project right-of-way application from appropriation under the public land laws, including the Mining Law, for a period of 2 years from the date of publication of this notice in the **Federal Register**, subject to valid existing rights. This segregation is to allow for the orderly administration of the public lands to facilitate consideration of development of renewable energy resources. The public lands segregated by this notice total 120 acres.

DATES: This segregation for the lands identified in this notice is effective on February 2, 2024.

FOR FURTHER INFORMATION CONTACT:

Terah Malsam, Realty Specialist, telephone (775) 885-6153; address 5665 Morgan Mill Road, Carson City, NV 89701; email blm_nv_ccdo_libra_solar@blm.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Melanie Hornsby. Individuals outside the United States should use the relay services offered within their country to make

international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: On April 24, 2023, the Notice of Intent to segregate lands and prepare an environmental impact statement for the proposed Libra Solar Project was published in the **Federal Register** (88 FR 24827). This announced the segregation of 5,500 acres of public lands for the proposed project. This notice effectively adds 120 acres to the segregation for a total of 5,620 acres of public land.

Regulations found at 43 CFR 2091.3–1(e) and 43 CFR 2804.25(f) allow the BLM to temporarily segregate public lands within a right-of-way application area for solar energy development from the operation of the public land laws, including the Mining Law, by publication of a **Federal Register** notice. The BLM uses this temporary segregation authority to preserve its ability to approve, approve with modifications, or deny proposed rights-of-way, and to facilitate the orderly administration of the public lands. This temporary segregation is subject to valid existing rights, including existing mining claims, located before this segregation notice. Licenses, permits, cooperative agreements, or discretionary land use authorizations of a temporary nature that would not impact lands identified in this notice may be allowed with the approval of an authorized officer of the BLM during the segregation period. The lands segregated under this notice are legally described as follows:

Mount Diablo Meridian, Nevada

T. 12 N., R. 27 E.,
Sec. 32, N½SE¼;
Sec. 35, NE¼ SW¼.

The areas described aggregate 120 acres, according to the official plat of the survey on file with the BLM.

As provided in the regulations, the segregation of lands in this notice will not exceed 2 years from the date of publication unless extended for up to 2 additional years through publication of a new notice in the **Federal Register**. Termination of the segregation occurs on the earliest of the following dates: upon issuance of a decision by the authorized officer granting, granting with modifications, or denying the application for a ROW; automatically at the end of the segregation; or upon publication of a **Federal Register** notice of termination of the segregation.

Upon termination of segregation of these lands, all lands subject to this segregation would automatically reopen to appropriation under the public land laws.

Bureau of Ocean Energy Management

[Docket No. BOEM–2024–0006]

Notice of Availability of a Draft Environmental Assessment for Additional Site Assessment Activities on Beacon Wind, LLC’s Renewable Energy Lease OCS–A 0520

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: The Bureau of Ocean Energy Management (BOEM) announces the availability of the draft environmental assessment (EA) to analyze the reasonably foreseeable impacts from additional site assessment plan (SAP) activities in Lease Area OCS–A 0520 offshore Massachusetts. Beacon Wind, LLC (Beacon Wind), the leaseholder, requests to conduct additional site assessment activities in the lease area that were not analyzed in the initial EA titled “Commercial Wind Lease Issuance and Site Assessment Activities on the Atlantic Outer Continental Shelf Offshore Massachusetts” (2014 EA). The draft EA analyzes the potential environmental impacts of the proposed site assessment activities, which consist of 35 deployments and removals of a single suction bucket foundation at 26 locations within the Lease Area to gather information to support the engineering design of wind turbine and offshore substation foundations that would potentially be installed within the Lease Area for a future Beacon Wind project. This notice of availability (NOA) announces the start of the public review and comment period, as well as the dates and times for public meetings on the draft EA. After BOEM holds the public meetings and addresses public comments submitted during the review period, BOEM will publish a final EA. The EA will inform BOEM’s decision whether to approve the site assessment plan amendment for additional site assessment activities.

DATES: Comments must be received no later than March 4, 2024. BOEM’s virtual public meetings will be held on the following dates at the times (eastern time) indicated.

- Friday, February 23, 2024; 1:00 p.m.
- Wednesday, February 28, 2024; 5:00 p.m.

Registration for the virtual public meeting is required and may be completed at <https://www.boem.gov/renewable-energy/state-activities/beacon-wind>. Meeting information will be sent to registrants via their email address provided during registration.

SUPPLEMENTARY INFORMATION:

Proposed Action: The draft EA analyzes two alternatives: the proposed action, which is approving the additional site assessment activities proposed in the Beacon Wind SAP Amendment to the Lease Area, and the no action alternative. The EA considers the reasonably foreseeable environmental consequences associated with the deployment and recovery of suction bucket foundations to further assess the site conditions and gather information to support the engineering design of wind turbine and offshore substation foundations that would potentially be installed within the Lease Area for the proposed Beacon Wind project. BOEM prepared an EA for this proposed action in order to assist the
