

Director has requested from the FAA the release of a 10.1 acre parcel of airport property be released for sale to the Kansas Department of Transportation (KDOT) to construct a new maintenance facility to replace its current facility located within the Runway 36 Protection Zone. The FAA determined the request to release and sell this property at the New Century AirCenter (IXD) submitted by the Sponsor meets the procedural requirements of the Federal Aviation Administration and the release and sale of the property does not and will not impact future aviation needs at the airport. The FAA may approve the request, in whole or in part, no sooner than thirty days after the publication of this Notice.

The following is a brief overview of the request:

New Century AirCenter (IXD) is proposing the release and sale of a 10.1 acre parcel of airport property. The release of land is necessary to comply with Federal Aviation Administration Grant Assurances that do not allow federally acquired airport property to be used for non-aviation purposes. The sale of the subject property will result in the release of land and surface rights at the New Century AirCenter (IXD) from the conditions of the AIP Grant Agreement Grant Assurances. In accordance with 49 U.S.C. 47107(c)(2)(B)(i) and (iii), the airport will receive fair market value through a land exchange and the property will be developed into a maintenance facility by KDOT.

Any person may inspect, by appointment, the request in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT**. In addition, any person may, request an appointment and inspect the application, notice and other documents determined by the FAA to be related to the application in person at the New Century AirCenter.

Issued in Kansas City, MO, on February 1, 2024.
