Abstract: This collection is authorized by Section 101(b) of the National Historic Preservation Act, as amended (54 U.S.C. 302301), which specifies the role of States, Tribes, and local governments in the Historic Preservation Program (HPP). This information collection has an impact on State, Tribal, and local governments that wish to participate formally with the National Park Service in the HPP. Information is also requested to meet grant management and monitoring responsibilities for States, Tribes, local government, and other eligible grant recipients under 54 U.S.C. 300101 *et seq.* and 2 CFR 200.

Each year Congress directs the NPS to use part of the annual appropriation from the Historic Preservation Fund (HPF) for the State grant program and the Tribal grant programs to assist States and Tribes in carrying out their statutory role in the HPP. Through competitive grant programs, Congress also directs NPS to provide financial assistance to a variety of eligible grant recipients to support the broad cultural resource mandates of the National Historic Preservation Act and for other purposes.

We use these information collections to manage our statutory partnerships and for managing grants (usually to those same partners). We are requesting to update the name of this collection from “*Procedures for State, Tribal, and Local Government Historic Preservation Programs*” to “*Procedures for State, Tribal, and Local Government Historic Preservation Programs & Management of Historic Preservation Fund Grants*.” This change is to clarify our roles in managing our statutory partnerships and competitive (project) grants and formula grants.

The information from this collection is required to determine if State, Tribal, and local governments meet minimum standards and requirements for participation in the HPP and to meet program-specific requirements as well as government-wide requirements for Federal grant programs. We propose to discontinue the HPF Online Closeout/EOY (State Sources of Non-federal Matching Share Report). The extra reporting effort is redundant and is not useful in evaluating grantee performance or compliance.

The NPS uses the information collected to ensure compliance with the National Historic Preservation Act, as well as government-wide grant requirements issued and implemented through 43 CFR 12 and 2 CFR 200.
