The filings are accessible in the
Commission's eLibrary system ([https://
elibrary.ferc.gov/idmws/search/fercgen
search.asp](https://elibrary.ferc.gov/idmws/search/fercgensearch.asp)) by querying the docket
number.

Any person desiring to intervene, to
protest, or to answer a complaint in any
of the above proceedings must file in
accordance with Rules 211, 214, or 206
of the Commission's Regulations (18
CFR 385.211, 385.214, or 385.206) on or
before 5:00 p.m. Eastern time on the
specified comment date. Protests may be
considered, but intervention is
necessary to become a party to the
proceeding.

eFiling is encouraged. More detailed
information relating to filing
requirements, interventions, protests,
service, and qualifying facilities filings
can be found at: [http://www.ferc.gov/
docs-filing/efiling/filing-req.pdf](http://www.ferc.gov/docs-filing/efiling/filing-req.pdf). For
other information, call (866) 208–3676
(toll free). For TTY, call (202) 502–8659.

The Commission's Office of Public
Participation (OPP) supports meaningful
public engagement and participation in
Commission proceedings. OPP can help
members of the public, including

landowners, environmental justice
communities, Tribal members and
others, access publicly available
information and navigate Commission
processes. For public inquiries and
assistance with making filings such as
interventions, comments, or requests for
rehearing, the public is encouraged to
contact OPP at (202) 502–6595 or [OPP@
ferc.gov](mailto:OPP@ferc.gov).

Dated: February 2, 2024.

Debbie-Anne A. Reese,
Acting Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP23–513–000]

Port Arthur Pipeline, LLC; Notice of Availability of the Environmental Assessment for the Proposed Louisiana Connector Pipeline Amendment

The staff of the Federal Energy
Regulatory Commission (FERC or
Commission) has prepared an
environmental assessment (EA) for the
Louisiana Connector Pipeline
Amendment, proposed by Port Arthur
Pipeline, LLC (PAPL) in the above-
referenced docket. PAPL requests
authorization to make modifications to
its previously authorized Louisiana
Connector Project pipeline, construction
footprint, and installation methods in 38
locations. The Louisiana Connector
Project was approved by the
Commission on April 18, 2019, in
Docket No. CP18–7–000.

The EA assesses the potential
environmental effects of the
construction and operation of the
Louisiana Connector Pipeline
Amendment in accordance with the
requirements of the National
Environmental Policy Act (NEPA). The
FERC staff concludes that approval of
the proposed amendment, with
appropriate mitigating measures, would
not constitute a major Federal action
significantly affecting the quality of the
human environment.

The U.S. Army Corps of Engineers
participated as a cooperating agency in
the preparation of the EA. Cooperating
agencies have jurisdiction by law or
special expertise with respect to
resources potentially affected by the
proposal and participate in the NEPA
analysis.

The proposed amended facilities are
specific to 38 locations in Jefferson

County, Texas and Cameron, Calcasieu,
Beauregard, and Allen Parishes,
Louisiana (between milepost 0 and
milepost 82.5), as detailed below:

- modifications to pipeline routes,
construction methods, horizontal
directional drill (HDD) entry points, and
additional temporary workspaces to
accommodate landowner requests,
reduce environmental impacts, avoid
newly identified non-PAPL pipelines
and new structures, and allow for safe
construction access;

- shifting of pipeline permanent
easements to abut other existing
easements;

- addition and modification of access
roads for HDD construction and
inspection;

- modification of storage and staging
areas to utilize areas that were recently
and permanently impacted by other
parties;

- modification of access roads due to
obstructions and removal of access
roads no longer required;

- modification to water approaches to
use existing boat ramp/dock
improvements;

- relocation of mainline valves to
facilitate operations and maintenance,
provide for safer road access, and access
to power and communication facilities;

- modification of three waterbody
crossings methods from open cut to an
HDD as requested by the U.S. Army
Corps of Engineers;

- combination, in two locations, of
multiple HDDs into a single HDD to
avoid an open-cut crossing and
eliminate an HDD; and

- modification of HDD alignments to
avoid conflicts with potential future
deeper canal depths.

The Commission mailed a copy of the
Notice of Availability of this EA to
Federal, State, and local government
representatives and agencies; elected
officials; environmental and public
interest groups; Native American tribes;
potentially affected landowners and
other interested individuals and groups;
and newspapers and libraries in the
amended project area. The EA is only
available in electronic format. It may be
viewed and downloaded from the
FERC's website (www.ferc.gov), on the
natural gas environmental documents
page ([https://www.ferc.gov/industries-
data/natural-gas/environment/
environmental-documents](https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents)). In addition,
the EA may be accessed by using the
eLibrary link on the FERC's website.
Click on the eLibrary link ([https://
elibrary.ferc.gov/eLibrary/search](https://elibrary.ferc.gov/eLibrary/search)), select
“General Search” and enter the docket
number in the “Docket Number” field,
excluding the last three digits (*i.e.*,
CP23–513). Be sure you have selected

an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

The EA is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Any person wishing to comment on the EA may do so. Your comments should focus on the EA's disclosure and discussion of potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this amendment, it is important that we receive your comments in Washington, DC, on or before 5:00 p.m. Eastern Time on March 4, 2024.

For your convenience, there are three methods you can use to file your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208-3676 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature on the Commission's website (www.ferc.gov) under the link to FERC Online. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's website (www.ferc.gov) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the amended project docket number (CP23-513-000) on your letter. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Acting Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A.

Reese, Acting Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852.

Filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered. Only intervenors have the right to seek rehearing or judicial review of the Commission's decision. At this point in this proceeding, the timeframe for filing timely intervention requests has expired. Any person seeking to become a party to the proceeding must file a motion to intervene out-of-time pursuant to Rule 214(b)(3) and (d) of the Commission's Rules of Practice and Procedures (18 CFR 385.214(b)(3) and (d)) and show good cause why the time limitation should be waived. Motions to intervene are more fully described at <https://www.ferc.gov/how-intervene>.

Additional information about the amendment is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or OPP@ferc.gov.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

Dated: February 2, 2024.

Debbie-Anne A. Reese,

Acting Secretary.
