

electricity.” App. at 3. However, the Applicant “operates as a wholesale marketer of electric energy and as electric energy agent to Brookfield Renewable, which owns companies regulated as public utilities under the FPA and companies owning qualifying facilities.” *Id.* BRTM notes it has “market-based rate authorization issued by the Federal Energy Regulatory Commission (‘FERC’) under Section 205 of the FPA.” *Id.*

The Applicant asserts that it “does not have a franchised service area and, consequently, has no native load obligations” and will purchase the electric energy that it exports from electric utilities, qualifying cogeneration facilities, qualifying small power production facilities, Independent System Operators, Regional Transmission Operators, or from other exempt wholesale generators. App. at 6. Therefore, BRTM contends that “the electric energy that will be sold to BRTM is surplus to the needs of the selling entities” and “will not impair the sufficiency of the electric energy supply within the United States.” *Id.* BRTM also states it will comply with existing industry procedures for obtaining transmission capacity and asserts the proposed transmission would not impede or tend to impede the coordination in the public interest of facilities subject to DOE’s jurisdiction. *Id.*

The existing international transmission facilities to be utilized by the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. See App. at Exhibit C.

DATES: Comments, protests, or motions to intervene must be submitted on or before February 26, 2024.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to Electricity.Exports@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT: Christina Gomer, (240) 474–2403, Electricity.Exports@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 *et seq.*). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export (16 U.S.C. 824a(e)). On April 10, 2023, the authority to issue such orders was delegated to the DOE’s Grid Deployment Office (GDO) by Delegation Order No. S1–DEL–S3–2023 and Redelegation Order No. S3–DEL–GD1–2023.

On March 31, 2023, DEBM applied for authorization to transmit electric energy from the United States to Canada as a power marketer for a term of five years. On September 13, 2023, DOE issued EA–498, granting DEBM its requested permission. See EA–498. On December 29, 2023, NRGBM filed an application with DOE (Application or App.) to amend the authorization to reflect DEBM’s name change to NRGBM. See App. at 1.

The Application states that on July 31, 2023, DEBM changed its name to NRGBM. App. at 1. NRGBM notes that “[t]his action was solely a name change” and there were “no changes to the corporate structure, governance, or ownership of the LLC.” *Id.* at 2. The Application reflects that the other information concerning the subject exports provided in DEBM’s initial application for authorization, approved in EA–497, remains unchanged. See *Id.* at 1–4.
